KCKPS Instructional Technology is excited to announce the launch of Canvas for teachers!

Canvas will be available for all Classroom Teachers, who have rosters in Infinite Campus, beginning **Wednesday, October 28, 2020**.

Administrators, Instructional Coaches, and Support Staff accounts are not ready yet. We will let you know as soon as they are available.

Students <u>WILL NOT</u> have access to Canvas until mid-November.

Additional Information:

- Staff need to be provided with at least 2 hours of planning/training time around Canvas each week. All district Canvas training will be asynchronous. However, there are live sessions available for free each day in the Canvas training portal.

- All staff will have access to a course shell once logged into Canvas. Staff can choose to use the shell or create their own. However, all classes will need to include the following pages:
  - About Me
  - Resources
  - Modules
  - Virtual Meeting Link

Everything above will be discussed in detail once you launch the training/preparation course in Canvas.

How to Login to Canvas
Login to Clever - Click the Canvas tile

Once logged in, you will see the **KCKPS Launch Course**. Open the course and get started learning and preparing!
