

(Miltonius Arts Commission Guide)

-Open Temporarily-

I usually take 1-2 weeks or sooner to complete commissions depending on my workload and detail of the commission.

Payment is disbursed before I begin any commissions. You can pay me through Paypal or Patreon.

Talk to me about what you're looking for in the commission before sending payments.

+ Private Commission (+100% of Total Price)

Art will not be posted anywhere.

You become the sole owner of the art, I give up all rights.

I needed to create a more detailed guide to my commissions because the hours I spent on some commissions in the past and the workload I was taking on wasn't doable. I spend a minimum of 8 hours on each piece. With the more complex characters up to 16 hours, mainly with the AQW style art. My time is extremely limited now. Thank you for your support!

Some commissions I will create on my Twitch Stream. You can also ask for this if you'd like to see that.
