

Serious Subtraction

We are learning to solve subtraction problems using whole and decimal numbers.

Times Table Practice:

$$3 \times 3 = 9 \quad 5 \times 5 = 25 \quad 8 \times 7 = 56 \quad 12 \times 10 = 120 \quad 4 \times 6 = 24 \quad 5 \times 7 = 35 \quad 2 \times 4 = 8 \quad 3 \times 8 = 24 \quad 9 \times 8 = 72 \quad 4 \times 7 = 28 \quad 9 \times 7 = 63$$

$$345 + 385 = 730$$

$$847 + 126 = 973$$

$$674 + 586 = 1260$$

Your sister gives you \$125 to spend on lollies. If you spend \$65 how much money would you have left over?
She then gives you \$234 more. How much money do you have now: \$394

Pt England school are buying new sports gear. There is \$500 in the sports budget.
They first purchase a basketball hoop for \$50. How much money does is left?
They then buy a net for \$25. How much do they have left?
Then they buy three tennis balls. Each ball costs \$3. How much do they have left?
Finally they buy a netball hoop which costs \$100. How much is left in the budget at the end?: \$316

Troy has \$100 in his wallet. He spends \$65.50 on a new PS4 game. How much money does he have left?: \$34.50

Kahurangi wins some money and goes on a shopping spree. If he has 10.80 left in his bank account and he started with \$525.80, how much did he spend?: \$515

Zyla's puppy is growing every month. He used to weigh 5.6 kg but he now weighs 6.3. How much weight has he put on?: .97
