Privacy Policy for Strong Password Generator

Effective Date: April 7, 2026

1. Zero Data Collection
We take your security seriously. This extension operates 100% offline. It does NOT collect, store, log, or transmit any passwords, personal data, or browsing history.

2. How It Works
Passwords are generated locally on your device using your browser's native Web Crypto API. The generated passwords exist only in your browser's temporary memory and are destroyed the moment you close the extension popup.

3. Third-Party Links
The extension may contain affiliate links to trusted third-party password managers. If you click these links, you will be directed to their respective websites, which are governed by their own privacy policies.

4. Contact Us
If you have any questions, please contact the developer via the Chrome Web Store support section.
