

# The Great Canadian Bucket List!

Geographer (that's you!) \_\_\_\_\_

As we travel with Robin Esrock through his book and videos about amazing destinations in Canada, we'll keep track of where we've been. Here's some help with what the chart headings mean:

- Destination: the attraction visited by Robin
- Prov: province in which it's located
- Landform Region: Canada has 7 landform regions. Identify which one the attraction is in: Western Cordillera, Innuitians, Interior Plains, Great Lakes-St. Lawrence Lowlands, Appalachians, Hudson Bay-Arctic Lowlands, Canadian Shield
- Highlights: using a phrase or string of adjectives, identify the highlights - remarkable or cool things - about the attraction
- Go, No Go, Gone?: would you like to visit? have you been before?
- Personal Connection: do you have family there? have you heard of it? have you been somewhere similar? have you seen a tv show about it? lots of ways to answer this one!
- Book or Video: did we read a segment of the book or watch a video?

[illegible]
