

IMPORTANT PLACES TO SOUTHEAST INDIANS MAP

I'm having a problem with Zazzle* - where I am selling this map - their preview (on the gallery wrap) does not expand so you can see that the words are readable. Dang! So I made a better preview (see above, 1st pic). And what I am saying is ignore the Zazzle preview!

*Zazzle - It has a silly name but it has the highest customer satisfaction (for posters and canvas prints)
