

Improved Draft:

Hello X,

I saw your dental praxis in Durlach, which you took over in january.

Looking at your website, I noticed there could be improvements, to get more patients to book a meeting.

I can help you with improving the website, since I already have experience in website creation for dentists.

Would you like to get on a call with me so I could create this for you?

Sincerely,
Philipp

Outreach to dental praxis

"hello miss X,

I saw your dental praxis in Durlach, which you took over in january.

Looking at your website, I noticed it's not up to date, which could hinder you to get more patients.

I can help you with recreating a website, to persuade more patients to book an appointment, since I already have experience with web creation for dentists.

If you are interested in this, we could talk about this in a short call."

Infos:

She is new and just took over a dental praxis in january and on her website isn't much too see, only her saying she loves being a dentist and she is going to take over the dental praxis with some info.

I got experience with building a website for another dentist so I can help her with that.
