- Google Street View (take your own 360 photo)

Another great resource is Dan Russell, a Google Search engineer. His blog, [SearchReSearch](#), has fun search puzzles and challenges. He also has a series of tip sheets on advanced search methods designed specifically for journalists [here](#) and [here](#).

Please feel free to share back examples of your work where you've used techniques or tools you learned Saturday's session. We love showcasing these in future trainings.

Feel free to contact me with questions (jordanwb@gmail.com; Twitter: [@jordanwb](#)).

Best,
Jordan
