

Extra Shield

Add the extra Shield to the set of pieces to roll out. You begin your turn with one (1) Flick per Shield (two (2) Flicks), but do NOT gain additional Flicks from passing through pairs of Skulls.

Mini Golf

Roll out all of the pieces. Everyone will play using the same roll so use something to mark where the Shield starts.

Your goal is to pass through each pair of Skulls and hit the Treasure Chest in as few Flicks as possible. You do not earn additional Flicks and do not run out of Flicks. If any piece leaves the play area, return them to their position before they left, and add one (1) penalty Flick to that player's total.

Track total Flicks rather than points earned. Fewest total Flicks at the end of nine (9) rounds wins.
