List up to 5-10 "must have" shots for the wedding, if any:

- 2.
- 3.

How much time do you plan to allot for portraits of just the two of you? (I recommend setting aside at least 30 minutes.)

Will you be seeing each other before the ceremony? Do you plan on doing a first look?

Are you planning on doing sunset portraits? This is usually the best light of the day, and can take as little as 15 minutes.

Other Important Stuff:

Are there any restrictions at the ceremony location your photographer should know about?

Is there a receiving line?

Are there any restrictions at the reception your photographer should know about?

Are you doing a bouquet/garter toss/something else that involves flying things?

Are there any surprises you are planning for your guests for the ceremony/reception your photographer should be aware of (flash mob/sparkler exit/etc.)

Overall, what are your expectations of your wedding day photography? What do you hope for from the pictures of just the two of you?

Are there any parent expectations of the wedding photography that your photographer should be aware of?

Your photographer will do their best to capture all the important details of the day, but are there any specific details you want to make sure your photographer is aware of?

Vendor Contact Information:
