Edge-To-Edge Catalog

This is a selection of my favorite and most popular edge-to-edge designs. This is by no means even close to a comprehensive list; my machine came with hundreds of designs and I am slowly converting them into a format that can be better represented in a catalog form. If you don't see anything you like here, I suggest browsing [My Creative Stitches](#), [Sew Shabby](#), [A Bit Orange](#), or [Sweet Dreams](#). If you see a design you like there or anywhere else, send me the link and if it's not one that I have I will purchase it to use on your quilt at no cost to you (edge-to-edge designs only; for custom blocks and sets we will work out pricing).
