0.1.2 (new naming convention, would be Beta 1.1.2)

- Updated the Stage 4 and 5 boss conversations.
- Re-updated the Stage 1–3 boss conversations.

Beta 1.1.1

- Fixed typos which caused crashes in Stages 2 & 3 of Marisa's boss conversation.

Beta 1.1

- Updated the Stage 1–3 boss conversations.
- This should fix typos in Sanae's Stage 1 ~~and Marisa's Stage 2~~ boss conversations which would cause the game to crash. **(It seems Marisa's Stage 2 conversation did not get properly updated.)**

Beta 1.0

- **Initial release.**
- Boss conversations are partially translated; although, they have horrible grammar. I'd fix them myself, but I don't want to risk losing context.
- While test distributions with friends have been uneventful, it was a rather small test group. I fear that people will mostly have issues with Polished Shooting Star, but I will have to fix those issues as they come...
