If I'm not here tomorrow, this would be my final gift to every man who can't get hard or finishes way too fast, including you. YouTube has already taken down my video twice, just because I revealed a forgotten home trick hidden in the back of the cupboard that's making men over 60 perform like bulls in bed. After I taught this trick to my husband, he went for two hours straight and made me climax over five times in a single night. I discovered this trick years ago, when I was working as a secretary. It all started when for he a told urologist. me about a 72-year-old patient who started getting rock-hard erections again, lasting longer than a boxing round. The trick? A special pink salt mixed with another natural ingredient both cheaper than your daily coffee. Three months ago, we were on the verge of splitting up. Today I have to beg for mercy, because my legs can't take it. And the trick is so simple. It sounds made up. 100% natural, no pills, and it kicks in under 15 minutes. I'm about to show you a video that teaches exactly I've how to do seen it. people This charging video has \$99 already helped just to over reveal 100,000 this, men which is reclaim honestly their insane. manhood. Just a heads up, the video is raw and uncensored, and it shows exactly how to upgrade your performance in just.

A few simple steps. Go to your kitchen, put two pinches of Celtic salt on your tongue, and start having sex tonight like a porn star without any hassle. In 2025, men up to 85 years old are just using a secret hack to flip on their hidden erection cell. And now they have sex as many wherever times they a want, day as however they they want, want, with hard on demand directions, saving thousands of dollars and tossing out those embarrassing pumps, blister packs of Viagra and tadalafil that only mess you up, causing heart attacks and strokes. Today, I'm rubbing it in big pharma's face and showing you that the real cause of sexual impotence has nothing to do with age, testosterone, stress or your beer. Plus, I'll show you how to fix your impotence discreetly at home. No drugs, no surgery, no diet

changes, no exhausting workouts. Turn on this erection cell with a simple hack you can pull off in the bathroom, unnoticed in under 15 seconds, and watch the magic happen. Yeah, just like that. So stick with me in this short video demo where in just a few seconds I'll show you exactly how this science-backed erection hack works and how it's already helped more than 15,230 American men this year alone. The same hack was used for decades in the US Navy's official physical and sexual recovery protocol to quickly restore vets erectile function and hormone levels. It made sure that after years in brutal conditions, they came back to civilian and married life from Virl fully able to satisfy their wives every single night. It's been buried in the US for over 40 years by the pharma lobby. But now we've found that this hat can flip on the magic erection cell, the cell that decides when your cock gets hard and how hard it gets. and once it's on, you get rock hard, powerful erections instantly, whenever you want, and for as long as you want, you're in charge. That's why you can have hungry, passionate, or wild and hot sex with your woman, making her come three, four, even five times like a waterfall between her legs. She'll love it, admire you, and crave you every day, because this trick also releases two sex pheromones in you that hit a woman's mating instinct. leaving her hypnotized by your masculinity and totally hooked on you and only you. No pills, pumps, shots, or anything like that. Just fire up that erection cell, count 90 seconds, and you'll see your cock hard as steel, bulging in your pants, trying to jump out of your underwear, desperate to fuck right now. Everything you need to flip on this erection cell is this simple homemade hack I'm about to show you right now. Hey, I'm Dwayne Johnson. actor, You probably wrestler, know me as the Rock. former football player, and a graduate of the University of Miami. I've had the honor of serving our country by training U.S. Navy officers in combat techniques and then speaking at Harvard and Stanford universities about how poison testosterone is affecting men's ability to achieve hard lasting erections. With all my credentials and athletic and military experience, I bet you're still wondering, why is the Rock talking to me about my the erectile

Story Begins dysfunction? with my friend Thomas, a veteran who, like many men, had tried everything. Ginseng, prescription medications like Viagra, Cialis, Levitra, even more embarrassing and expensive treatments such as pumps and penile injections. But nothing gave a definitive solution. After a blessed coincidence, I stumbled upon something that would forever change our understanding of Ed. Thomas came to me desperate. Nothing was working. A father and grandfather, a war veteran who bravely defended our country, but now hiding in shame, afraid to face his wife, feeling like an unarmed soldier on the most important battlefield, the bedroom. Without power, without command, completely impotent, and about to lose his most precious treasure, his honorable marriage and his family. I had to find a way to help him. While studying his case, I noticed something that medical specialists intentionally overlooked, something he and 95% of American men have been doing since 1970. This discovery explains why common solutions from home remedies to medications don't serve to bring permanent results. And if you're here, you'll agree with me. That's because they're not treating it. They're only camouflaging the real and dangerous problem. You should listen to Thomas. No one better to show how this problem throws a man into the deep end.

SPEAKER 3

At first it seemed harmless, striking out once in a while when my wife teased me, but it went downhill fast. I was failing three or four times a week. When I actually got my dick up, it was half-mast or my cock would quit in the middle of sex, then it just stopped getting hard at all. I felt ashamed when Jenny was wet and craving me and I couldn't deliver as a man. Ashamed she might tell her friends her husband couldn't make her come anymore. Even walking into the pharmacy for those damn pills was humiliating because everyone there knew exactly what I couldn't do in bed. I tried everything miracle supplements, capsules, crazy I went home to remedies, a urologist. nothing changed. He shoved pills and creams at me like I

was hooked, and the side effects were hell. Not just dizziness and a pounding head. Having to gear up an hour beforehand felt like rehearsing something that used to be spontaneous. And the worst part? My libido was dead. Jenny figured I didn't want a pussy anymore. Sex turned into a protocol. Stopwatch. Pill. Lights out. The next End brilliant penile solution? injections. A dick pump. Just Pure picturing embarrassment. a needle in my cock still gives me chills. This damn problem poisoned my life. At work I couldn't focus. The failures replayed every second.

SPEAKER 2
Social life?

SPEAKER 3

Forget it. I made up excuses to dodge sex or got drunk hoping booze would help and it only got worse. My sex life with Jenny was toast. The last straw hit at a vet's event. I came back from the bathroom and there she was, slow dancing tight with another guy. He held her firm and she was giving him a look she When hadn't I stepped given up, me Jenny in years. My pointed blood at me and shouted, boiled. He sits more of a man than you, or at least he can get it up. The room went silent, hearing the snickers and seeing the pity. I just walked out. Right then, I realized I'd lost more than the ability to get hard. I'd lost my pride, my dignity, and the connection with the woman who'd always stood by my side. I thought of Dwayne, my old friend the Rock, from my Navy days, the biggest symbol of masculinity on the planet, With my pride and a shattered guy who never and stops nowhere else talking to turn, about men's I decided health. to call in. It was tough, but making that call was the best decision of my life.

SPEAKER 2

There were parts of Thomas's struggle that, out of respect for him as a man, I would never ask him to share in front of the cameras. Situations that showed just how devastating Ed D becomes if it's

ignored. He was like a brother to me, a guy I greatly respected since our Navy days as a trainer, mentor, and man, I needed to do something. I had to think outside the box, just like we did during training and in the Navy when our backs were against the wall. Fortunately, my position gave me access to military studies not available to the public. And it was while I was up all night poring over these confidential studies that I came across a breakthrough in erection problems and others like penis size. A report by the U.S. House Committee on Veterans Affairs revealed men over the age of 40 are 300% more likely to have permanent erectile dysfunction, decreased penis size, and prostate cancer. When I dug deeper, I was shocked. This has nothing to do with age, genetics, or diet. It's a testosterone disorder. And for you to understand, let me ask you, isn't it strange that since the erection problems started, you have also noticed sleep problems, hair loss, increased abdominal fat, fatigue, and even premature ejaculation. Is this all a coincidence? The latest research says not. In April of this year, the Journal of Sexual Medicine has revealed a discovery from Harvard University that changes everything you think you know about men's sexual health. And look at that. Around age 14, we hit puberty and our testosterone maxes out. That's why during that stretch we start growing pubic hair, shoot up in height, and our voices drop because that's what testosterone growth, builds, does. muscle, and shapes all the masculine traits, and your penis is no exception. Scientists have found that guys born after 1970 saw penile growth up to three times smaller than expected. Average male hormone levels nosedived 299% in recent years, and erectile dysfunction skyrocketed 17-fold. So if you were born after the 70s, while your body was gearing up to develop, it was already getting poisoned and your junk was getting sabotaged. But what caused it? The study pended on 10 pesticides used in U.S. agriculture, rubber stamped by the government, that mess with testosterone, including glyphosate, endosulfan, and DDT, some of the worst hormone disruptors on record. Those same toxic chemicals leave our fruit looking like this. But we're not just getting hit with the chemicals that

poison eggs. our bodies Here's and our dicks the real through shocker: fruit, when veggies, we're young, meat, our bodies milk, are fragile. That's why we need vaccines and meds to protect our health. But there's a price: because those vaccines and meds carry a bunch of chemicals that sometimes end up mixing with key brain cells. That's why some babies develop neurological problems after vaccines or meds. It's rare. Most of the time, though, the body filters those chemicals out, ships and them flushes to the testicles them in the urine. That's why newborn pee is usually reddish. That color shows the chemicals are getting kicked out. And here's where it gets really interesting. When scientists studied the male body, they discovered a lot of grown men still carry leftovers of those chemicals. That got their attention, so they dug deeper. After four months, they found something that flipped everything we thought we knew about erectile dysfunction and men's health. Check it out. Those substances cells. end A up lot mixing of doctors with a call group them of erection cells cells. in the testicles They pump out called all the interstitial testosterone in your body from puberty till the day you die. When testosterone is produced, some of it activates androgen receptors in the penis. Those trigger growth and expansion of penile tissue, and that's where the trouble starts. When those cells get polluted with toxic chemical leftovers, they can't crank out pure testosterone erectionN anymore. The stuff solid that makes and your makes dick you feel grow, like a real man. Instead, they churn out another version, DHT, what scientists call poison testosterone. It's corrupted and can't switch on those growth receptors or support healthy erections. It rewired the whole male biology and that poison testosterone is what 95% of American men are dealing with today. But listen, you know what really pisses me off? It's no accident. Big Pharma and Big Food have known this for decades. So has the government and nobody talks because of the money. Since the 70s, while men's testosterone was tanking, Big Pharma hid the real cause and cashed in big selling blue pills and ED meds. And you know damn well strong, confident men with powerful dicks are dangerous to the system and hard to control. It's

obvious they want weak, insecure, sexually submissive dudes. So if you're dealing with erectile dysfunction, low premature libido, ejaculation. a small penis You know or this, premature it's ejaculation, not your fault. And that's why I'm going to show you exactly how to do the Celtic salt hack to reverse all of that in less than four weeks and give you the biggest and strongest dick of your life. Because when the US military saw these issues in their soldiers, they couldn't afford to let them suffer. So on February 26, 2024, the Secretary of Defense and the Congressional Armed Services Committee ordered a top secret impact on study men's on sexual poison testosterone health. He was led and by respected Navy veteran and endocrinologist Dr. David Randolph, who specialized in urology for 35 years, served as head of research at Stanford University, and was named by Forbes in 2022 as the world's top expert on men's health. He was also interviewed by Men's Health and the BBC after his book, Silenced Virility, became a bestseller on erectile dysfunction the US, topping Amazon for two straight years. I got in touch with him, set up a meeting, explained everything I had studied, and here is that's the short version of what he told me. When I asked what it takes to get rid of this testosterone poison, he said, you, don't need to get rid of it because it's still testosterone. The only problem is stas contaminated with toxic residues. Think of it like this. You don't set cut off your nose when you have a cold. fight the virus. Same here. You just need to clear the toxic residues from the interstitial cells so they can go back to making pure testosterone. Then he walked me through the paths I could follow to remove those residues. The first, a long, dangerous path with genetically modified testosterone replacement therapy. But that method comes with potentially fatal side effects, and after 35 years in medicine, he doesn't recommend it. Whenever the men and soldiers saw improvements, their dicks soon went back to the way it was because the real source of the problem was never fixed. So ask yourself, is it worth enduring needle pain, liver and heart damage, abscesses, embolisms, and mental harm? Is it worth the risk of ending up alone, bitter, stressed,

and aggressive, and still stuck with a limp, small dick for the rest of your life? I don't think so. To restore your erection and kickstart natural penis growth, substances you need a specific method and flushes that targets them out, letting those your toxic body make pure testosterone and giving you a rock hard thick dick so fast it almost feels illegal. While reviewing military files, Dr. Randolph went through medical reports from World War One up to Afghanistan. In the records of Marines stationed on the Brittany Coast, there were zero notes of erectile dysfunction or sexual problems. He cross checked That's with when the he French spotted entries Navy Diaries dating back and to saw the same 1897 pattern. in the logbooks. Hand out salt, garand, daily in the military rations. Known today as Celtic Salt. Convinced something unique was going on, Dr. Randolph dug deeper and found in the Grande Armée diaries that the same salt was given to Napoleon's coastal troops because it kept male hormones healthy and high, boosting the soldiers' strength and energy. Besides the fact that Celtic Salt is hand-harvested in the salt flats of Brittany and holds more than 82 minerals, three kinds of magnesium, zinc, and selenium. All of them are tied straight to the systems that run your testosterone, erectile power, and libido. He told me there are three incredibly rare bioactive compounds in that strong Celtic salt, and they are vital for detoxing the body, changing your erections, and turning the penis growth process back on. Listen The first bioactive closely. is a probiotic bacterium called *Salinibacillus brittonensis*. These probiotic bacteria are the main reason Celtic Salt from French Brittany has such unique effects. He showed me that one study done by researchers at Heidelberg University in Germany found that these bacteria can wipe out toxins, chemical leftovers, pesticides, and heavy metals that wreck the body's They scrub natural your system of testosterone toxins that stop production. your dick In short, from reaching full hardness and size, and they help bring back pure natural testosterone. That is only the start. The second bioactive is marine collagen type I and II, an extremely rare substance full of flavonoids that raise blood flow by up to 567%. A

2019 study at Kyoto University showed that this compound can instantly widen the blood vessels in the penis, improve vascular stretch, and penile rebuild tissue, making those vessels up to five times wider and letting you have stronger, longer and more intense erections. This means that with Steady Use youe Dick not only grows in length but also in thickness and veins, locking in animal level erections. The third bioactive, Dr. Randolph's favorite, and the one that surprised him most is called Marine Biomass Ectostarone. Ectostarone is 89% like human growth hormones and also works as a natural growth hormone in shellfish and algae, the same algae that settle on Celtic salt from Brittany while it forms. In the human body, it acts like a natural anabolic. A study at Imperial College London, a world leader in clinical research and hormonal biochemistry, found that Etocosterone can boost natural testosterone production by penile up to 700% growth by cells switching that were back shut on down by poison testosterone. This means real penis growth, stronger erectile tissue, and a massive rise in male virility, turning any boy into a real man in less than two weeks. At that moment, I had no doubts. Celtic Salt from Brittany on the French coast is truly one-oF-A-Kind. It proved once and for all that its bioactives are directly linked to testosterone and a big jump detox, in biological penis growth, blood flow. That was when I decided to give Thomas the exact military grade ratio. But what happened next was nothing short of a miracle. The change was so intense that he insisted on sharing it with you.

SPEAKER 3

When Dwayne handed me the Celtic salt hack, I'll be honest, I had tried so many things that failed, I didn't have much hope left. In the first couple of days, I felt a slight boost in libido, just another letdown, I thought. but out of respect and because of everything he had done and being a good soldier, I knew consistency was key, so I kept going. I started taking it and after just two days, I was waking up with a rock hard morning wood and like a damn miracle on the third day, Lord Jesus. For the first time in God knows how long, I

woke up with a throbbing solid hard on. By day five, Jenny walked in wearing a tight red dress. When I grabbed her huge tits, I felt my cock get harder than it.

SPEAKER 2

Had in and decades.

SPEAKER 3

This wasn't some half-assed direction. My dick was nearly tearing through my pants, hard as a rock. When she pulled my boxes down, her eyes went wide and she begged me to take her right then and there. She was moaning uncontrollably, squirting all over the bed. And after 55 minutes, when I had one of the biggest orgasms of my life, my dick was still standing tall and she was totally wrecked with satisfaction. It wasn't just her who was blown away. I was too. I never thought I could have a dick Even this when thick it's and soft, hard, able it's to stay way bigger solid now. for hours. I finally feel like a real man again. Dwayne Johnson and Dr. Randolph gave me my life, my manhood, and my marriage back.

SPEAKER 2

I'll be forever grateful for that. It wasn't just about fixing the sex problems. It was about getting back everything you lost: your confidence, your dignity, your manhood. But I had to be absolutely sure. I know field testing matters. So I reached out through my VA hospital network and recruited two 250 U.S. veterans who'd risked their lives for our freedom. I also signed up 250 civilian men married guys living normal lives. The results were jaw-dropping these proud Warriors started having sex like never before 97 reported a big jump in sex drive 92 saw clear gains in penis length and thickness of at least 0.4 comma 0.8 comma up to three inches more. 89 said they could last at least three times longer in bed. 85 said their wives noticed right away and started begging for sex every night. 100 swore they'd never touch blue pills or tadalafil again. Several wives even called my office in tears, thanking me for giving them back the

strong, confident men they married. With results that strong, Dr. Randolph decided to make Celtic salt hack even more powerful by adding four proven ingredients. Horny goat weed from China, Cambridge University study shows it can boost penile stiffness by up to 400% even in severe cases of ED. Peruvian Maca grown in Peru's rich soil, it balances sex hormones, raises libido and stamina and brings back firm erections even in men who felt no desire for months. Indian Ashwagandha slashes lowers cortisol stress, and lifts your testosterone, locking in rock solid natural power. Alarginine from pure Amazon acai and guarana widens blood vessels and pumps blood straight into your dick like a natural Viagra above with zero side effects. I knew I had a moral duty to make this solution available to men all across America. But here's the thing, getting all these military grade compounds, pure safe, powerful, and dialed in to give max results fast isn't like grabbing ingredients at the grocery store or local pharmacy. Pay close attention now. Pure Celtic Salt from France's Brittany Coast is one of the rarest salts on Earth. Like any treasure, it's tough to harvest and take in the wrong way it can be useless or flat out dangerous. If all it took was any old dose, every guy would already be cured. Each crystal needs up to 18 days to form naturally under the sun in shallow salt ponds yielding less than 40g per square meter in a perfect season. No machines. The polluteers rake it by hand with wooden tools and bag the salt while it's still moist, sealing in its bioactives and 80 plus minerals. Tides, weather and seasons limit the harvest and only a fraction reaches ideal purity. That's why no factory can copy it. It's sun, sea and human patience. On top of that, three isolating bioactives and extracting at 100% purity and safety is only possible in military level clean rooms run by a tight global elite of scientists who know the painstaking process. That's why we partnered with Leo Biotech in Boulder, Colorado. Their facilities meet the same strict standards used to prep combat rations for our special forces. Every ingredient is tested to the letter, every batch mixed with precision under FDA and GMP certified conditions. That ironclad commitment to quality makes Leo Biotech the trusted choice of America's top medical

institutions. After months of work with elite scientists and formulators, we finally nailed the exact formula that hit every one of our spec. We call it Eros Bites. It's the only 100% natural formula FDA and GMP approved that packs the exact dose of the three bioactives from Celtic Salt harvested in the Guerande Salt Brittany, Flats of plus France. all 82 minerals and the four pure add-ons from their local sources, each one proven to flush pesticide toxins and fight poison testosterone, giving you back the manhood that was stolen from you. Every ingredient was hand-picked not just to scrub your cells clean and strip away poison testosterone junk, but to make your body pump out up to 700% more clean, pure testosterone, taking your natural 1,500 levels past with zero steroids. That means rock hard, powerful erections. You'll finally end premature ejaculation and grow your penis to the size you always wanted. 0.4, 0.8, even three inches or more in under two weeks. With this simple Celtic Salt trick, your dick gets bigger, more veiny, with a length and girth that leave any woman totally submissive and obsessed with you. You'll make her squirt like crazy, soak the sheets, and cry with pleasure while she screams your name and begs on her knees for another round because you just gave her a porn star orgasm she's never felt before. And don't worry, every bottle of Airrosti is made right here in the USA in FDA and GMP certified labs under ultra sterile exacting conditions. 100% safe and natural. No GMOs, no toxins, no stimulants, non-habit and no brain chemistry backlash. Each dose is dialed in so you feel zero side effects. The one side effect you'll notice is ironclad erections on demand and an instant surge of pure testosterone. You'll get stronger, build more muscle, burn fat, and feel a huge boost in energy and stamina. During sex, you'll control your finish and keep going all night with your wife or any woman you want, no matter how hot she is. Even your semen volume shoots up, unleashing big loads. She'll love swallowing it. Your libido will be so intense that just looking at your wife gets you hard. When you hit the bed, get ready to see your cock bulging through your pants. You'll never stress about getting it up again, because you'll be stone hard before

you even touch her. That's why I say nothing. Nothing compares to Eros Bites. It's the only formula that gives you monster erections and feels makes you any inside woman her. count Even the after seconds you come, until she your feels dick stays rock solid like a steel bar so you can leave your wife's legs shaking and the sheets drenched with nothing but your cock. And you'll love seeing that big smile on her face after wild passionate sex in every position you can dream of. In short, Aerosbites is all you need to bring your erections back for good. Just take one Aerosbites first thing in the morning on an empty stomach with a glass of warm water. It doesn't matter if you have diabetes, high blood pressure, heart issues, or prostate problems. It doesn't matter how old you are, how long you fought erectile dysfunction, or how many miracle cures you've tried. From the moment you start Eros Bites, you'll have a thick, hard dick at the ready, making your wife crave sex with you every single day. More than 20,000 men have tried Eros Bites, all in the best investment of their lives. Men like Luke 51, who said, When I switched I didn't to expect the gummy the effect version, to be this strong, but it worked. Actually, even better. My libido is crazy now, and I wake up hard as a rock every morning. No side effects, just hardness and satisfaction. Or 77 year old Paul from Texas. Prostate cancer left me impotent, and I had to rely on Viagra. I hated how it made my head feel. I pop one gummy in the morning, and I'm ready anytime, anywhere, and I feel naturally stronger. My dear wife is very satisfied, no waiting around. The results for those who decided to try Eros Bites are phenomenal. Dennis from Arizona is living proof. Not only are my erections harder, but I swear my penis got visibly thicker. My girlfriend even asked what happened. She said she can feel it's bigger inside her now. That's the best compliment I've ever gotten. I love hearing stories like these. They prove our formula works for every type of man, no matter his age or how bad his situation is. And why it works is dead simple. The four super bioactives in every Arrow Spike goes straight to the root of the problem. They flush out all the pesticide toxins and crank your body up to pump 700 more pure testosterone. Naturally, your blood flow

skyrockets, your dick starts to grow and thicken, and your sexual power hits levels you've never felt before. Best part? These bioactives don't just kill the craving to overeat, they make you grow. They also spike your energy, drive, confidence, and mental edge. Everything in your life starts getting better even if you're 40-50 or already past 60. Now the question you're probably asking, how do you use arrow spites? Ever since we uncovered this secret, we knew keeping it in stock would be rough. The Celtic Salt hand-raked French from coast and the other bioactives are extremely limited. Picture this. It takes an entire harvest hive to turn out just 100 bottles of Eros bites because that Celtic salt is gathered by hand in the centuries old garande pans under perfect natural conditions. It takes weeks for the salt workers to gently pull the crystals off the surface to make those same 100 units. Each batch is capped and thousands of guys are already locking he down never their wants bottles. to live without Once it. That's a man tries why we sell out fast. This video stays up only while we have stock, so if you're watching now, bottles are still left, but that can change fast. And we packed Eros Bites into gummies to give you top tier absorption with zero hassle. Here's the deal. Your body spent years getting sabotaged by poison testosterone. To lock in full results, we suggest ruining Eros Bites for at least 180 days. You Fix: don't just you: want a want quick permanent gains. Joint studies with Leo Biotech and Stanford Shilmen who stay on the formula over six months can add up to 3.6 inches to their cock. That's on top of wiping 100% of the toxins from your system, so the problem's gone for good. Guys who chew the gummy for six months also report up to a 700% surge in testosterone. That rocket's libido delivers longer-lasting erections and throws no wonder in a over 10 stack 000 of other men health perks. grabbed our last run Aeros bites and most went for the six bottle kit because the current batch is almost gone. As I record this, only 180 bottles remain. So if you want big, lasting erections while your dick gets thicker and longer and you want to give your partner endless orgasms on demand, leaving her totally hooked, Aeros bites is the only formula on Earth that can

make it happen and the only place to get Aeros bites right here, right now on this site. It's not in pharmacies. They jack the price tenfold. And that's bullshit. We cut out every middleman to give you rock bottom pricing right here on our official page. You won't find it on Amazon, eBay, GNC or Walgreens either, thanks to all the shady knockoffs. So jump on this chance and lock down your Eros Bites stash before it's gone. But before I show you exactly what to do to try Eros Bites and how you can even get up to three bottles for free, I want you to be honest with yourself. What's it worth just like to you you did to in have your rock youth. hard erections What's it whenever worth you to want? last 40, 50, even 60 minutes non-stop in bed? To have a bigger, thicker dick, more energy, higher testosterone levels, and the real admiration and devotion of any woman who gets addicted to your cock. Most men spend around \$1,000 a year on blue pills, and all those pills do is give you a hard on for a few hours, make you dependent, and slowly damage your heart. Some guys \$10,000 even pay up to for weird surgeries that can lead to total penis amputation. Then there are the men wasting hours doing strange dick exercises and massages, exercises with no proven effect that often lead to painful and serious injuries. The truth is, besides all the known risks, none of that ever solves the problem for good. That's why, after seeing the results for themselves, many Aeroscapes users told me they'd gladly pay \$1,000 \$10 for just one bottle. But even though we know our formula is worth every bit of that, we also know that price would make Eros Bites unreachable for a lot of men who truly need it. So there's no way I'd ever charge \$1,000. My goal here is to help men who, like me, went through the same struggles avoid ruining their relationships or falling into infidelity. That's why Dr. Randolph and Leo Biatch agreed to charge only enough to cover the lab's operating costs, the research team, the ingredient sourcing, gummy production, and the cost of running this video online. But pay close attention. The official price of one bottle of Aerosbites is \$197. And honestly, even at that price, it would still be worth every penny. Considering the power it delivers, that's insanely cheap, especially

when you compare it to those garbage blue pills, Tadalafill, and fake capsules. But since you've stayed with me until now, I've got a special offer just for you. If you secure your Aros bites right now on this page, you won't pay \$197. You won't pay \$197. Not even \$98. In fact, you can get a bottle for just \$89. And it gets even better because you've dedicated your time to watching this video until the end. I prepared an even bigger deal for you where you can get three bottles of Aros bites completely free. Here's how it works. When you order the six bottle kit, you only pay for three bottles and get the other three totally free, giving you a full six month supply. And the best part? You're only investing \$49 per bottle, the lowest price we've ever offered.

SPEAKER 3

Wow.

SPEAKER 2

But here's the catch. We're talking about the final harvest of 2025. This exclusive batch was limited and we were only able to bring in 240 extra bottles for this month. Because of new government import policies, seasonal conditions, and the difficulty of sourcing Celtic salt from the French coastal salt flats, we could only import one last shipment before the next harvest, which doesn't happen until January 2026. If today's stock runs out, we won't be able to ship more for several months. That's why if you want to guarantee your transformation starting today, I strongly recommend you choose the full six-bottle kit while it's still available. and here's one more important detail. Some men report that within just the first 48 hours after taking their first dose, they already feel an increase in blood flow to the penis and get stronger erections more easily. Imagine that just two days from now, you could be getting rock hard erections like steel. So don't wait until tomorrow. Click the button below, choose your package, and take this chance to get massive erections and blow your partner's mind starting this week. And I highly recommend going with the six bottle option. On top of saving

money, you'll also be boosting blood flow to your penis by up to 342%, making your erections last longer, protecting your body from the daily toxins you're constantly exposed to, and gaining all the added benefits for your health and virility. Of course, if you prefer the three bottle kit, you'll only pay for two and get one completely free. That gives you a full three month supply. in that case, you're investing just 59 per bottle. But here's the thing. The longer you use, the more you lock in a permanent solution. That doesn't mean you won't see results. Even if you take it for just one or three months, you can still experience strong on-demand erections with any of the options. But if you want lasting results, don't want to keep buying every month, don't want to risk running out, and want to make sure the problem never returns while saving even more, I strongly recommend the six bottle you only pay for three bottles and get another three completely free. As I mentioned before, this offer is only available for men who choose to order right here and right now through this site and only while supplies last. So all you have to do to eliminate your problems once and for all and become a true beast in bed able to satisfy any woman is to choose the six bottle kit or whichever option suits you best. Click the button below right now. When you click the button, you'll be taken to our 100% secure order page. There you can choose how many bottles you want to order. It takes less than a minute to enter your payment info and once your order is confirmed, we will ship Aerosbites straight to your door in 100% discreet packaging. No one but you will know inside the box. And if you go with the three or six bottle kit, shipping is completely free. Plus, you'll get three powerful bonus gifts reserved only for our VIP customers. The first bonus is a step-by-step guide straight from the top producers in the adult film industry. It's the exact method they use to train male porn stars to hold their load for over 60 minutes on camera. It lays out 12 simple tricks you can do right at home to get over full your control nut so you can last as long as you want, 30,

60, even 90 minutes. With this you decide when the sex ends. You're in charge. No more busting in five minutes. You'll be the one laying it down for hours, leaving any woman fully wrecked and dripping with satisfaction. My wife used to look so disappointed after sex, and I hated that look. Now with this guy, she's moaning and screaming every damn night. She told me last week, It's like we're turning back time. I don't know what you're doing, but please, never stop. The second bonus is a full-on guide with five positions that will make her squirt and scream loud as hell. These are the same positions used in the most famous adult films, and they'll get her straight up addicted to having sex with you. And if having a thick, rock hard erection ready for action wasn't enough, now you'll be able to hit her in ways that soak the sheets, roll her eyes these back, positions and have her were screaming created thousands with raw, of years uncontrollable ago and pleasure. give women insane levels of pleasure because of the way your dick hits deep inside, nailing a super sensitive spot that most guys never even come close to. It's a kind of sensation she's never felt before. These five sex positions from the guide literally saved my marriage. We feel like teenagers again, watching your woman squirt is fucking incredible. I made her squirt four times in a row and the last one was right on my face. What a rush. I never thought I'd be able to do that, especially after turning 50. No man should die without making a woman squirt multiple times. The third and final bonus is the ultimate manual on how to give a woman multiple orgasms. This one's my personal favorite because it teaches a lesbian trick using just two fingers, something I learned in Brazil from one of the best sex experts in the world, Katia Damasno. I love using it on my wife. You'll be able to make any woman climax over and over again in just a few minutes. It's seven times more powerful than hands, tongues, or even vibrators. When you use this on a woman, she'll feel an overwhelming kind of pleasure she's never experienced before. She'll worship you and get addicted to sex because all she'll think about is the explosive pleasure you gave her. With this lesbian trick, you'll turn into a full-on sex god. You'll know exactly where all

her pleasure buttons are and give her two, three, even four orgasms back to back, leaving her legs weak and shaking.

SPEAKER 3

I've been using this lesbian trick for.

SPEAKER 2

Three months now, and man, my wife.

SPEAKER 3

Calls me a beast because she comes multiple times every night and wakes up begging for more. I swear, I don't even know how to keep up anymore.

SPEAKER 2

Is insane. This trick And it doesn't matter if she's never had an orgasm in her life. When you use this trick, she'll squirt like a busted pipe and soak your bed. That's why she'll never think about another man again and won't even consider divorce. You'll be the only one who can give her the kind of intense pleasure that makes her come five times in a row. If we added up the value of all these bonuses, it would cost well over \$5,000 to access everything. But today, when you lock in the three or six bottle Ares bites package. You get all three bonuses completely free. And for those of you who grab the six bottle Ares bites kit right now through this site, you'll also get exclusive access to the Rock Hard app. The Rock Hard app is a private tool created by Dr. Randolph and me, built in partnership with the Leo biotech team. It uses the same kind of AI Tech that powers SpaceX to calculate your exact ideal Aeros Bites Dosage based on your hormonal profile. Everyone who orders Aeros Bites today will receive a free account by email as soon as they install the app on their phone. All you do is plug in your age, height, weight, and select your main issue, whether it's ED, sexual impotence, small dick, or premature ejaculation. The Rock Hard app then gives you a personalized report showing exactly how many gummies to

take each day based on your unique profile. And the best part, the app is insanely easy to use. Even a kid could set it up in seconds. Plus, the app also shows the exact protocol to maximize the effects of the Celtic salt, helping you get harder erections, more stamina in bed, and gradually unlock true penis growth week by week. That's why we always recommend every man grab at least six bottles of Eros Bites, because depending on your profile, the app might tell you to take up to three gummies a day, especially during the first 30 days. And I know you don't want to run out in the middle of your treatment, right? And don't worry, access to the app and your custom report is 100% free. When you buy Arospites today, our studies showed that the longer you take Arospites, the more powerful and long-lasting your pure testosterone boost becomes, and the stronger your penis receptors get. That means guys who use the full six month Airus bites kit don't just get rock solid erections, they also build up permanent improvements in blood flow and sexual performance. And the best part is, even if they stop taking it later, their body and dick keep running full force with no crash or rebound effect. So really, when you buy three bottles, you're getting three more totally free. The six bottle kit is perfect for staying consistent with your treatment, locking in long-term results and building real lasting growth in your dick and your sexual vitality for months. And you save a ton of money doing it. See how simple this decision is. All you need to do now is take action. But you've got to act fast right now and choose your package below. Maybe you start thinking, Duane, how can you be so sure this is going to work for me? Well, that's the easiest question I've ever had to answer. Eros Bites has already been tested and proven by over 20,000 men across the US, including Navy the formula officers. was developed in partnership with Leo Biotech and researchers from Stanford University. It's the only certified and approved product that contains the bioactives powerful enough to flush out poison testosterone and reactivate not just dick growth but your full erection power and raw masculine energy that was stolen from you. The real question you should be asking yourself is why the hell

wouldn't I try this? And to make sure you've got zero doubts right about now, taking action I'm right now, giving you a one-time no-brainer deal. Leo Biotech offers a full 90-day unconditional guarantee on everything made in their lab. So if you're still feeling skeptical, I get it. You've probably already spent a fortune on blue pills, injections, or other overpriced treatments, and none of them actually worked. But we're so confident that Eros Bites will bring back your size, your power, and your confidence that you've got a full three months test to put with it zero to risk. That's more than enough time to flush the poison testosterone out of your body, fire up your shut down penile receptors, raise your pure testosterone levels, and bring back monster hard erections like you had at 18. Not to mention real noticeable gains in size and thickness. And if it doesn't happen, you'll get 100% of your money back. Just shoot us an email and we'll refund you no questions asked. In other words, either you feel the full transformation from Eros Bites over the next three months or we give you every single cent back. That's right. If you don't feel a difference in your sexual performance, if your dick doesn't grow in length and thickness, if you don't reclaim your virility and rock solid erections, I'll refund you every dollar you invested. No questions, no hassle, no fine print, and there's more. I believe in this for me so much. And I know it can completely change your sex life. That if for any reason, Aeros bite isn't everything you hoped it would be, I won't just give you your money back. I'll even let you keep the bottles as a gift as my way of saying sorry for wasting your time. Fair enough. Then here's what you need to do. Start taking Aeros bites and watch your body change. In just the first few days, you'll feel the blood flow increase. Your erections will be harder and last longer, and you'll notice insecurity the fatigue. and the performance problems just fading away. You'll feel stronger, more confident, and even look more masculine. Now imagine what that's going to do for your confidence and how badly your wife or girlfriend is going to want you. But one more thing, Big Pharma doesn't want you to know any of this. This is the third time I've tried to keep this video online. If you're still watching, that means it hasn't been taken

down yet. But the truth is, the big drug companies are doing everything they can to bury this discovery because they make billions selling pills that don't actually fix anything. None of that crap works for you because it was never meant to. Studies show the pharmaceutical industry makes almost 300 billion dollars a year pushing erection pills. You really think they want you cured? Hell no. But what I'm offering here is the real permanent solution. So I need to be totally real with you. If you leave this page right now, you may never see this offer again. And the next time you go looking for this product, it might already be wiped off the internet. So if you want to take back your manhood and full sexual power, this is your one and only shot. Click the button below and lock in your order while there's still time. Next time you come back, it might be too late and you'll have missed out on the only real solution to this problem. So I want you to stop and think for a second, because right now you're standing at a crossroads. The right path is finally right in front of you, the one you've been searching for your whole damn life. The one that'll give you back your confidence, your self-esteem and your self-respect. Or you can ignore everything you just saw and keep walking down the same damn road you've been on, living with weak erections, a smaller than it should be dick, and average at best sexual performance. And let's be real, you already know what's waiting for you down that path. Shame, humiliation, that constant fear of failing again. The anxiety creeping in during your most intimate moments, the whispers behind your back, the frustration that's not going anywhere unless you do something about it. Now think with me, if you don't make this decision right now, what's really going to change a year from now? You'll still be stuck in the same cycle, still wondering what your life could have been like if you just said yes. Right now, you've got the chance, the chance to erase all that and start fresh. A new life where you're in control. Where you do what the biggest porn stars in the world do behind the scenes. You can become the kind of man women beg for. The kind of man who finally steps into the dominant alpha role he was born for with a huge rock hard dick and full power in bed. This is your moment and

the decision is yours. Like they say, the pain of regret a thousand times worse than the pain of taking a shot. And remember, because of how rare and seasonal the Celtic salt from Brittany is, harvested only once a year, we can't mass produce Eros Bites. Every batch takes months to prepare, and once it's gone, restocking takes time. That means if you leave this page now and try to come back later, it might be too late. So the choice is yours. But if I were you, I'd lock in my order right now. Just click the order button below while there's time. still I promise it'll be worth it. Because if you don't act now, our stock will run out and you won't get another chance. And you know what that means, right? That's another three months putting your health at risk with those damn blue pills, keeping your heart under constant stress. That's if those pills still work for you at all. And if they don't, that means three more months without sex. Let's be honest. No man wants to go through the humiliation of failing over and over and of a woman. A man is supposed to be a symbol of strength and power. If a man can't stay hard long enough to satisfy a woman, she loses respect. She starts seeing him as weak. And I know damn well that's not the image you want to show, right? The image every man wants is strength, leadership, dominance. A man who takes charge. And you know what men like that do? They don't freeze or back down when a problem shows up. They act. They make a decision. So make the smart move and say yes to the chance of having a bigger dick. And never again suffer through weak, disappointing erections. It's time to do the right thing for yourself and for your relationship while this opportunity is still on the table. Well, I've done my part. I've explained exactly how Eros Bites works. I've shown you the scientific proof and I've offered it at the lowest possible price to make this decision as easy as it can get. all of that for just a few cents a day. It's not just a great deal, it's a no-brainer. But now the choice is in your hands. Big hug. Thanks for watching. I truly hope you're able to grab at least one bottle while we still have stock because this could be the last time you'll ever see this offer. So scroll down now before it's gone. Talk to you soon. Your friend Dwayne Johnson.
