

# POP Toolkit

LEARNER CENTRED

ACTION ORIENTATED

TRANSFORMATIVE

## Toolkit question prompts

- What opportunities are there for communication and collaboration?
- Are multiple perspectives or 'lenses' engaged? Who is advantaged/disadvantaged and who has the power to change this?
- What social, economic, environmental or cultural issues are embedded?
- Which systems are relevant or interlinked? Which Sustainable Development Goals (SDGs) are implicated?
- What are probable, possible and preferable futures?
- How do I feel about this/how do I/can I contribute to change?
- What are the potentially transformative learning areas/disorienting dilemmas?

Share the Meta learning theory: 'learning about learning' and 'learning about change'
