Title of Paper (Your title should not be more than 15 words)
[Title: Times New Roman, font size 14, Bold, centered]

Author Name[1*], Author Name[2] & Author Name[3]

[Use full name of all authors, Times New Roman, font size 11, superscript 1, 2, 3 etc. to indicate affiliation, centered]

[1]*Institute of Mathematical Sciences, Faculty of Science, University of Malaya, 50603 Kuala Lumpur*

[2]*Department of Mathematics, Faculty of Science, Universiti Putra Malaysia, 43400 UPM Serdang, Selangor Darul Ehsan*

[Indicate authors' affiliation with superscript 1, 2, 3, etc. and start each address on a new line, Times New Roman, font size 11, *italic*, centered]

Corresponding author: email address* **[Times New Roman, *italic*, font size 11]

Abstract

The manuscript must include an abstract, describing its main points within 150-200 words.

Keywords: **[3-5 words; Times New Roman; font size 11; arrange alphabetically]**

1. Introduction

Write your introduction here.

2. Materials and Methods

Math Type should be used for mathematics symbols and formulae. All equations should be numbered sequentially using Arabic numeral throughout the paper not according to sections or subsections. For example:

Given that the formula of R^2 determination coefficient is as follows:

$$R^2 = \frac{\sum_{i=1}^{n}\left(\hat{F}_i - \bar{F}\right)^2}{\sum_{i=1}^{n}\left(\hat{F}_i - \bar{F}\right)^2 + \sum_{i=1}^{n}\left(F_i - \hat{F}_i\right)^2}$$

(1)

Eq. (1) is applied to a data set to test the goodness-of-test. If the R^2 value is in the range of 0.8 to 1, it can be conclude that the data set fits well to the respective distribution.

2.1 Sub-section

2.1.1   Sub sub-section

3. Results and Discussion

All illustrations including figures, charts and graphs must be labelled and supplied on pages within the text. The desired placement in the text should be clearly indicated. These illustrations should be referred to and numbered serial, as figures (Figure 1). References in the text should be denoted by giving the name(s) of the author(s). All alphabetically ordered references list should be included at the end of the manuscript. All references cited in the text must appear in the reference list. Authors are responsible for the accuracy and completeness of all information in the reference. The references should be cited consistently throughout the manuscript using APA style (Yunus & Khan, 2010; Ng et al., 2010; Hamid et al., 2012).

3.1 Table

Table caption should be written at the top of the table.

Table 1. Coverage Probability for sample size, $n = 30, 50$ and 100 and concentration parameter, $\kappa = 1, 2, 3, 5, 10$ and 15.

	Title 2	Title 3	Title 4	Title 5	Title 6

C					

3.2 Figure

Figure caption should be written at the bottom of the figure.

Figure 1.

4. Conclusion

Write your conclusion here.

5. Acknowledgements

Write your acknowledgement here.
