

After many months of work we are excited to share that District 95 will be launching a new website this Friday! There will be a brief period of time Friday after school that the website will be inaccessible. Once the new website is live it will take 24-48 hours for the security certificate to update, so over the weekend you may receive an error message like the one pictured below. You can click on **Advanced** and choose **Proceed to district95.org (unsafe)** to access the website.
