

GCSD Authenticate

For Off-Campus Connectivity

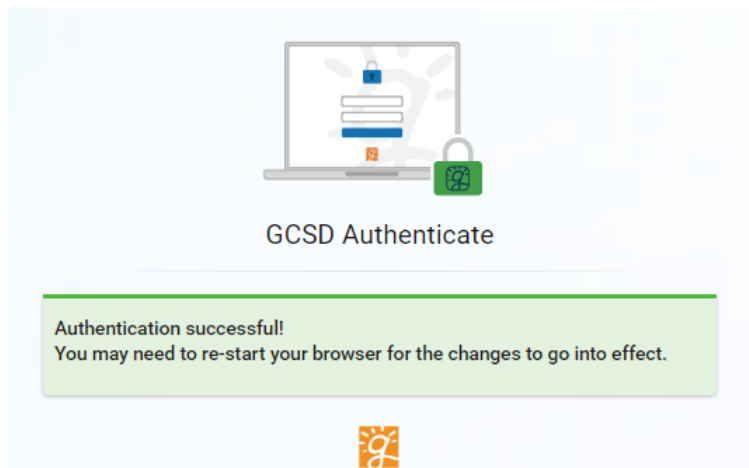

1. Click on the GCSD Authenticate icon on your Shelf (menu bar at the bottom of the screen). It looks like this: 

2. This will open your Chrome browser and will show a screen with instructions to allow internet access on a network outside of Greenville County Schools.

Enter the same **username and password** as you would use to log onto your Chromebook, and click the “Log in” button.

3. When you have successfully logged in, you will see a screen that says your authentication was successful. **You may need to close Google Chrome** (not just the tab) **by clicking the X in the top-right corner, then re-open the application** for the changes to take effect.

You should now have access to websites away from school!
