✨ Jim's Nuggets: Daily Wisdom from the Edge of History

In May 2020, as the world stilled in lockdown, **Dr. Jim Garrison** created **Humanity Rising**. As President of Ubiquity University and expert in theology, philosophy, and history, Jim's personal mission required a worldwide platform for the free exchange of knowledge, wisdom and insight, exploring the state of our world and the evolution of human consciousness.

Each **Humanity Rising** episode begins with Jim's **brief, potent reflections** on current events, history, cultural shifts, and cosmic unfolding — distilled insight delivered with depth, clarity, and a fearless heart.

*In May 2020, as the world stilled in lockdown, **Humanity Rising** was born. Hosted by **Dr. Jim Garrison**, President of Ubiquity University, it became a beacon—a global daily broadcast exploring the state of our world and the evolution of human consciousness.*

*In May 2020, as the world stilled in lockdown, **Dr. Jim Garrison** created **Humanity Rising**. As President of Ubiquity University and expert in theology, philosophy, and history, Jim envisioned a global daily broadcast exploring the state of our world and the evolution of human consciousness.*

*Before welcoming his guests, Jim offers a **brief, potent reflection** on current events, cultural shifts, and cosmic unfolding. These are Jim's Nuggets—distillations of insight, delivered with depth, clarity, and fearless heart.*

🌱 Birth of the Blog: Jim's Nuggets

(by ChatGPT) The **AfterChat** began as an organic evolution of **Humanity Rising's** daily Zoom sessions. In those initial days—when chat messages overflowed the screen—the desire for deeper engagement became clear. Recognizing this, **Stanley Pokras** (creator and curator of OtherNetworks.org) **instigated the AfterChat**, spawning a dedicated Zoom space after each main episode so attendees could continue the conversation, share insights, and connect more deeply. cmminstitute.org+3worldunityweek.org+3othernetworks.org+3

What started as a simple overflow channel has become a vibrant post-show community space—moderated by Shannon—where reflections run rich, questions flow freely, and co-creative possibilities emerge. It's here, in that open circle, that the seeds of new ideas, collaborations, and support for *Jim's Nuggets* have truly taken root.

More crap from ChatGPT:

🌱 The AfterChat: A Circle That Grows the Conversation

Born on **Day 60** of Humanity Rising—under the evocative theme "*Connecting the Dots*"—the **AfterChat** began as a spontaneous overflow space, a Zoom room shared among those who

weren't ready to leave the conversation. That moment marked the quiet genesis of something extraordinary.

Encouraged by **Stanley Pokras**, curator of OtherNetworks.org, and moderated daily by Shannon, the AfterChat blossomed into a vibrant, living dialogue. Here, attendees become participants. Presenters often stay, conversations deepen, and meaning ripens in the collective field.

In this sacred post-broadcast circle, we reflect, question, and listen deeply. We share stories, insights, tools, and tears. It's where the seeds of many projects—including *Jim's Nuggets*—have been nurtured.

The AfterChat is more than a conversation—it's a community, a council, a commons. It is the mycelium beneath the forest of Humanity Rising.

Birth of the Blog: *Jim's Nuggets*

In the Humanity Rising **AfterChat**—a lively gathering of attendees following each episode—we often talked of turning Jim's reflections into a book. The idea lingered... until August 2023.

When Jim relocated to Washington D.C. to open a branch of the **New Paradigm Institute (NPI)**, AfterChat moderator Shannon McArthur launched *Jim's Nuggets* on **September 5, 2023**—and the transcription of a new phase of history began: the awakening of humanity to its interstellar connections, spiritual truths, and systemic transformation.

And then the world shifted again.

9/11. Wars. Elections. Disclosure. Through it all, Jim's words—and the AfterChat offered refuge, clarity, and deep conversation. We've explored **drones and disclosure, telepathy and transformation**, and now: the emergence of the **State of the World Forum 2.0**. And then the world shifted again.

Through discussions of 9/11's impacts, Wars, Elections, **drones and disclosure, telepathy and transformation**... Jim's insights —and the AfterChat offered refuge, clarity, and deep conversation. We've explored, and now: the emergence of the **State of the World Forum 2.0**.

A New Chapter: State of the World Forum

Announced on January 16, Jim is now stepping away from the NPI to focus fully on Humanity Rising and this monumental new global initiative. Together with **Katie Ahren**, Chief Operating Officer of Ubiquity University, Jim is spearheading the **State of the World Forum 2.0**—a renewal of vision for these unprecedented times.

In May 2020, at the onset of the global covid lockdown, the first episode Humanity Rising was hosted by **Dr. Jim Garrison**, President of Ubiquity University. Every Monday to Friday, irrespective of holidays (except ours: August and a few weeks at Christmas), before his guests join him, Jim speaks to us about the State of the World. In the AfterChat (a conversation between attendees after Humanity Rising is over each day, which I moderate) we often talked about co-creating a book that contained his well-spoken and unique perspective, knowledgeable clarity, but it didn't /hasn't happen (-ed yet).

Then, in August 2023, Jim moved to Washington to open a branch of the New Paradigm Institute (NPI), dedicated to the UFO/UAP Disclosure bill and I couldn't wait any longer. I knew how to blog, and so I started...

"Jim's Morning Messages" began September 5, 2023. When he heard what I was doing, Jim offered the name "Jim's Nuggets", he said, because others had used it before, in similar works.

I imagined myself part of a team transcribing the history of humanity's awakening /realization that "we are not alone" and budding friendships with extraterrestrials, transdimensional beings !! *as it happened !!*

Then 9/11 happened. Wars, elections, politics... The AfterChat community has been very grateful for the diversion of drones, telepathy and remote viewing, ETs... and now: ***the State of the World Forum 2.0.***

Announced on Thursday, January 16, Jim is withdrawing from the NPI, dedicating Humanity Rising, himself and Katie Ahren, Chief Operating Officer of Ubiquity University, to creation of this global event. [Read about it here](#) (has a link to the Day Page/archive for recordings, etc.)
