

ERA 2 - Colonization & Settlement - Silent Sustained Reading & LINK

Learning Quest Directions: This activity begins with LINK (aka List, Inquire, Notes, Know). Before getting started, [watch this video tutorial](#) to see how LINK is done.

*In the first square in the Answer Template (**List**), list everything that comes to mind about the topic of colonization and settlement. Give yourself only a few minutes. If nothing comes to mind, please make some scholarly guesses to show that you tried. You are only penalized if nothing is recorded in the box or you have listed something that is way too far fetched.*

*In the second square (**Inquire**), write three questions you need answered to gain a better understanding of the topic (colonization & settlement). You will be given a few minutes to ask me or a peer your question(s).*

*The third square pertains to **notes**. Please read the article titled [Settlement and Colonization of North America](#). This is the Silent Sustained Reading part of the activity. When you are finished reading, record some notes that help you better understand the topic (colonization & settlement).*

*Use the fourth box (**Know**), to write a three sentence paragraph that shows what you know about the topic. Please use your own words rather than copy a few lines from the article.*

The activity is now complete!!! If you can think, you can LINK, and that don't stink. Good work.

Answer Template

List	Inquire
Notes	Know
