You share a flat with student B and you are getting fed up with him/her. These are some of the things he/she does:

- play loud music till late
- eat the food that you bought
- leave his/her dirty clothes and shoes lying around the flat
- invite all his/her friends round till late
- block up wifi downloading films so you can't get any reception

You know that you are a very good flatmate and can't understand why he/she doesn't make more of an effort. Today you have decided to talk about it. You start with : *"Look, we have to talk."*
