

Uploading the video to YouTube

1. Go to YouTube.com - on a computer
2. Log into YouTube with your youraccount@ga.hiltoncsd.net
3. Click on "Channel"

4. Create your YouTube Channel - name your channel with your username ex: 03jgilmore

Create your YouTube channel

Creating a YouTube channel lets you upload videos, create playlists and respond to videos with comments. [Learn more](#)

Upload videos

Videos you upload to YouTube will appear on your channel if you make them public.

Create playlists

With a channel you'll also be able to create playlists. If you make a playlist public it will be associated with your profile.

Comment

Your comments and likes will be associated with your profile. You can control if they appear on your channel by adjusting the sharing settings [here](#).

How you'll appear on YouTube

Username: [Check availability](#)

03JGilmore

Your username can contain only letters and numbers

Gender
