

## Hello 1st grade artists!

This week I would like to suggest that you make your own

[Spoon puppet](#).

[Lots of other ideas!](#)

**Puppetry** is a common cultural artifact all over the world!

Some puppets were made out of clay in Ancient Greece and are dated from the 5th century!

[This article](#) shows pictures of puppets from around the globe!

Fun Fact: there is a copy of Kermit the frog in the [Smithsonian Institute](#), the national museum of American History !

I hope you enjoy making your puppet and you can tell stories or sing songs with them!

Please share your puppets on [Flipgrid](#). You can also add comments to your friends puppets on flipgrid, OK?!

- Dear parents,

Please notice there are 5 links in this document. I hope it helps you manage a fun and meaningful experience with your child. Don't hesitate to contact me if you have any questions or comments:
