GlobalProtect Android VPN Install/Settings

1) Go to your Google Play Store and search for “GlobalProtect” and click Install

2) Once the application is installed click “Open”
    a) Allow any notification windows that appear

3) Enter vpn.wiu.edu for the Portal Address and click “Connect”

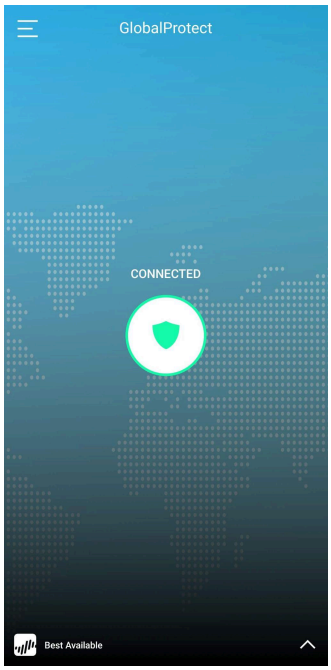

GlobalProtect Android VPN Install/Settings

a) If prompted for a Sign In, please enter your ECOM Username and password and click Sign In

4) Accept any messages you get from the VPN

GlobalProtect Android VPN Install/Settings

5) You should see a “CONNECTED” screen and a Green Shield once connected

6) To Disconnect click the Green Sheild that says “Connected”. This will disconnect you from the VPN.

7) You probably want to create a shortcut on your main screen or remember where the GlobalProtect icon is because you will need to go there to CONNECT and DISCONNECT from the VPN.
