### **THE POWER OF SHOWING UP**

Parents and caregivers can sign up now for "The Power of Showing Up," a FREE six-session course on Tuesday nights from May 19 to June 23.

This unique parent training is based on brain and attachment research. It emphasizes the importance of consistent, quality parental presence for a child's healthy development, happiness and success. It's not about being a perfect parent, and it's not about being with kids 24/7. It's about offering a quality of presence that helps kids feel secure. Every parent can use a few more tools in their parenting toolbox... and these tools are FREE! There's nothing to lose!

To sign up and get more information, go to [AstraKS.org/ShowingUp](https://AstraKS.org/ShowingUp)

### **MENTAL HEALTH REFERRAL FORM**

We have a new way for the community, families and students to communicate a mental health concern. On our USD 338 website, under Counseling Connection, there is a link titled "[Click Here for the Mental Health Referral Form](#)". This will allow people to communicate a mental health concern and will be forwarded to the mental health team. This form is not checked when school is not in session. Text 988 for immediate help with suicidal thoughts or concerns.

### **MAKE A DIFFERENCE FOR A CHILD IN OUR COMMUNITY**

Court Appointed Special Advocates (**CASA**) is seeking volunteers to support children involved in the foster care or court system. Become a voice for a child in need - learn more at: <https://linktr.ee/SunflowerCASA>

- **Exercise-** Regular physical activity improves our mental and physical health and can help us live longer.
- **Nutrition-** Research shows that diets high in processed, fried and sugary foods can increase the risk of depression by 60%.
- **Social Support-** Poor social support makes it harder to recover from mental illness, while a strong social support system improves overall outcomes and the ability to bounce back from stress.
