

*hi there! if you're here, you're probably interested in getting the full scope of **shoegaze** in chronological order. i'm here to make that as easy as possible, and even though this series is far from complete, i'll continue adding stories as they come. eventually, a timeline will be tacked on to this, but for now have this little list! hopefully it helps some people out, who are probably just as confused as me on this godforsaken timeline <3*

oh, additional little note - i'm going to link the stories below so you can easily click on the title and go straight there! i figured that would be easier than finding each individual story lol.

SERIES ORDER.
