

# Kelsifer's Commission Sheet

---

**It is recommended to view this document on a computer/laptop!**

## **Rules:**

- Main Contact: Discord (Kelsifer#7766), Twitter/X (@Kelsifer\_07)
- Secondary Contact(s): [kelsifer07@outlook.com](mailto:kelsifer07@outlook.com)
- Payment through Paypal or Ko-fi only.
- Please only contact me for serious inquiries, though you may ask questions about my commissions! Also ask if I am available for commissioning before making your request!
- For security purposes, I will not be accepting DM requests from **Discord** unless you have personally contacted me from either Twitter or Email first, or if you have contacted me beforehand in a mutual Discord server.
- My works are **NOT** allowed to be used as NFTs, or used on the blockchain/blockchain technology. Any/All of my works used on blockchain websites and services are infringements and will be reported. Likewise, my works are not allowed to be changed or adjusted by machine learning or derived technologies, or for derivatives of my works to be created through the use of the above-mentioned technologies.
- Please include a picture of your character that you want drawn, as well as list what you would like in your commission (shading, backdrop, etc). I am more than willing to discuss other details you want!
- You will receive multiple work-in-progress images during the process, to be able to ask for changes. If the client never mentions any

problems when seeing the work-in-progress photos, I will not return the money once the drawing is finished.

- Should a client not reply within 48 hours of receiving drafts or work-in-progress photos, I consider the commission canceled by the client. In this case, already paid money will not be returned, drafts are not stored and I will proceed with any existing image as I see fit.
- I may be inclined to post the finished piece on social media (mainly Twitter). I will always ask first, but please let me know if you are fine with that or not.
