Entry-Level Drafting & Technical Design Worker Job Posting

Job Description:
We are looking for a detail-oriented and motivated Entry-Level Drafter / Technical Designer to join our team. This is a great opportunity for individuals interested in launching a career in drafting, technical design, or engineering support. No prior experience is required—just a strong willingness to learn and an interest in design technology!

Responsibilities:

- Assist in creating technical drawings and blueprints using CAD software.
- Work with engineers, architects, or designers to develop and modify plans.
- Ensure drawings meet company and industry standards.
- Review and interpret sketches, specifications, and notes to create accurate drafts.
- Maintain organized files and documentation of designs.
- Collaborate with team members to troubleshoot design challenges.

Requirements:

- Pursuing a high school diploma and enrolled in a related CTE program.
- Basic knowledge of CAD software (AutoCAD, SolidWorks, Revit, etc.) is preferred but not required.
- Strong attention to detail and problem-solving skills.
- Ability to read and interpret technical drawings and specifications.
- Willingness to learn and take direction from experienced professionals.
- Strong computer skills and ability to adapt to new technology.

Benefits:

- On-the-job training and career advancement opportunities.
- Competitive pay with overtime potential.
- Health, dental, and vision insurance (if applicable).
- Paid time off and holidays.
- Support in obtaining industry certifications (e.g., Autodesk Certified User).

If you're ready to start a rewarding career in drafting and technical design, apply today!
