

PREDATOR & PREY

Rules:

- *This MAP is completely beginner friendly. Admittedly, you might have a better shot at getting accepted if you show art or animation examples (or past experiences in MAPs), but you won't be withheld if you don't have any. Your best shot at getting in is asking for as many parts as possible.*
- *Please use this [google form](#) when asking for a part! Additionally, discord is required for this MAP. I may allow you in if you don't have discord, but know that if you are unable to communicate with me you will be dropped. Hosting MAPs over discord is hopelessly difficult and know that it is your responsibility to get your part done if you take this option.*
 - *Here is the link to the discord server (spectators are welcome):*
<https://discord.gg/YMnKWmMYk>
- *Follow the color palette! If you aren't sure of something PLEASE ask me instead of just going with it; It will save you from having to go back and change your part. The color palette changes depending on what part you have so please keep that in mind. The palette is available on the discord server (I will send it to you if you can't join).*
 - **NO LYRICS.**
- *PMV is recommended for your part but if you want to animate please make it slower so that it fits with the song. Still frame, tweening, and animation that fits with the mood of the song are all accepted.*
- *The soft deadline is one week after the MAP closes (if you have over two parts you will have a two week soft deadline). You should aim to finish your part by that time. If you can't finish your part by then that's fine, but it SHOULD be done after another week. If you can't finish by then you will be dropped unless you are extremely close to finishing. Please only join if you think you can finish by the soft deadline (you do not have a two week deadline. You have a one week deadline and a single extension if you can't finish in time). I know this is really harsh but I assure you that if you communicate with me I will do my best to help you! There are also backups/helpers that can pitch in!*
- *AMV, tweening, and still frame are all allowed for this MAP! Just make sure you do something that you can finish!*
 - *1920x1080 screen size (full screen)*
 - *The first codeword is to tell me your favorite animal!*
- *If I contact you please respond to me within 24 hours. If you're going to be gone for a stretch of time please let me know so that I don't drop you. Please don't ghost me, it's super frustrating on my end. I know joining MAPs can be stressful at times but communication is key and if you can't finish your part it's okay to just drop. There is absolutely nothing wrong with dropping.*

- ➔ No NSFW. Gore is fine but don't make it too extreme. If you aren't sure then run it by me!
- ➔ Please provide a download link for your part (google drive preferred but sendspace is fine). I can also take parts over discord but the quality will be lower.
- ➔ I'd highly prefer it if you didn't have an app watermark for your part. I understand not having the full version of an app and being unable to remove it; I was there once, too. Be aware that I can totally edit your part together if you want to join but have a watermarked app, and I'm sure other people would be happy to as well!
- ➔ Your second codeword is to tell me what you are using for your part! You are free to choose anything you like (OCs, fandoms, AUs... anything as long as it doesn't involve real people) or to change what you are using, though I might ask you to pick something different if it is problematic or I think people might find it uncomfortable. If you are worried that the media you want to use is problematic do not be afraid to ask me!
- ➔ To expand upon that, you can use catified/animalified designs, animals, furrries, humans, whatever for your part. There is also no limit to the amount of people who can choose one fandom (but also keep in mind that it would be a little odd if everyone was doing The Owl House except one person).
 - ➔ I am happy to help you cut the audio for your part!
 - ➔ You can take up to three parts. If you want another you can take a backup slot.
- ➔ Have fun! I know these rules sound really harsh but as long as you communicate with me things will go just fine!
