

Outreach:

Hello Daniel.

Massive respect to you for being in the SAS, that's one of the most incredible jobs there is on this planet.

What you've done with 22 Smokin'Aces is pretty awesome, your experience in physical training on ops is inspiring.

It's great that you're now coaching others with your unique training programs.

I've been researching the Tactical Fitness niche and came across 22 Smokin'Aces,

And I'd like to help you stand out, sell more programs, and provide value to your audience with motivational and info giving communication.

By using my writing skills I'm confident I can grow your community and have more people training using your methods.

To prove my confidence I'd like to offer 5 Captions for Instagram posts on a free trial,

Then determine whether or not we are a good fit to partner together.

By all means, if the project doesn't satisfy you then we can both move on.

In the meantime and to show you my dedication, down below I've inserted an example IG Caption.

You may even have other digital marketing needs for your business,

Perhaps assistance with email marketing or rewriting elements of your website for clearer reading and product description.

So if I've grabbed your curiosity with this then don't hesitate to respond with any questions,

Here is the IG Caption:

Separate From The Average and Be Elite.

If you want to be a character far from the average bum,

Who lays in every morning, skips training, indulges in porn, fast food, recreational drugs, and what not,

That is the most understandable thing there is on this planet.

I too despise the laziness, lack of drive and adventure the modern world has cultivated.

Fortunately, for us who strive to achieve and always go a little further,

There are others out there closer than you think, who believe in the same thing.
I and all the members in the 22 Smokin'Aces community,

Are people with the mindset to get after it what ever hardships we face,

And if you're a somebody striving for excellence...

We will happily welcome you aboard The Team.

You will have to prove yourself,

To not only us,

But to yourself.

That's the most imperative thing about being a human,

Self fulfillment, confidence, and the capacity to exceed the standard.

The ability to protect yourself, your family, and your country,

Whilst feeling like a Boss doing so.

That's what we cultivate in the 22 Smokin'Aces community.

Don't hesitate, join us now!

P.S. I recommend we post these with Bad Ass pictures of SF operators, or videos with likewise.

All the best,
Oscar Gomes Thiselton
