

Character Information: RuvStyle

Who is RuvStyle and what is he?

RuvStyle is an ancient god character and the primary antagonist of his one-shot freeplay week in Future Night Funkin'. From his real life specification, he's RuvStyle's personification and uses his character for his videos. From his lore specification, he's an ancient god born in a mysterious realm with an ambiguous origin and wielding godlike powers and Rayna's ex-boyfriend.

Personality

Most of his personality is very unknown, however, from his original design, it's shown that he's making an angry expression and keeps the said expression on his face at every time he's singing, showing how furious he can be. However, this may not be the case of the fact that he's always furious. In the removed Soda Disco Funk cover from Vs. Rayna, he makes a different expression, meaning RuvStyle is not a bad-tempered person.

In Future Night Funkin', he's still the same.

History

Ruvenstain's past is shown to be the same as his original self; his childhood is unknown but prior to his rebirth, it's said that he was born in another realm, implying he's an ancient god that existed from another universe before traveling to another universe. It's also said that he was reborn at some point but the way of how he was reborn is very unknown, but what can be collected is, he met Rayna in Earth after entering the said planet and they became couples but broke up for unknown reasons, possibly due to the fact that she found a job from the Dearest Family.

11 years later, he was in a realm he made for his own privacy then Boyfriend and Girlfriend entered his realm somehow. The blue-haired rapper challenges him to a rap battle but Ruvenstain doesn't seem to be interested at all, ignoring his request to challenge him but his resistance made the overzealous rapper more determined than ever. After many times, Ruv finally loses his strings and decides to battle him so he'll never bother him anymore.

What are his powers and abilities?

Ruvenstain's powers remain the same as his original self, however, none of his specific abilities were shown in the original mod but stated by his original creator, RuvStyle, he has godlike powers and yet, none of his specific abilities were shown. However, from his reference sheet, there are fire and electricity from Ruv's hands. This would make him have the abilities to use fire and electricity at most of the times.
