- Format it ***EXACTLY*** like [this](#). **LOOK AT THE EXAMPLE!**

Title: Use your creature's name.

Paragraph One: Write a concise one paragraph synopsis of your story, and in particular, the scene you’ve depicted including the background. Don’t scrimp here – we need to understand what we’re viewing but **be concise!**

Paragraph Two: Explain the process used to create your illustration using Adobe Illustrator. Discuss the process used to create your hybrid animal character, and *why* you used those animals (what characteristics do they represent from your story character). Also address your use of linear perspective (1 or 2 point? Why? Interior or Exterior? Why?).

Paragraph Three: Reflect on your final product. What, if any, difficulties you encountered with your initial plan. How did you solve those problems? Are you pleased with your work? What would you change or do differently?

You must be concise to fit this on **ONE PAGE**.

If you don’t follow these EXACT instructions you will lose points.

After you’ve thoroughly proofed your work (spelling, punctuation, capitalization of [proper nouns](#), etc.), submit the URL to Canvas by the due date!

PART 2:
