

Universal Learner Courses (ULC)

HS10 Foundations for Universal Learner Course - Students

HS10: Foundations for Universal Learner Courses provides information and resources to enable students' success in ULC. Students will learn strategies and tactics to successfully navigate the course site, as well as manage time, tasks, and assignments.

Learning Objectives

At the end of this course, students should be able to:

1. Navigate the course site
2. Review how to earn college credit
3. Identify and access critical course components, such as the syllabus, course units, and discussion forums
4. Identify why email is important in course communication
5. Demonstrate proper use of discussion board etiquette and participation
6. Recognize how mindset impacts successful learning
7. Identify and implement strategies and tactics for managing stress
8. Find resources to aid in course success
