

VCES Fossil Forensics

Amber-Rose Faith: Palaeontologist

Amber-rose is highly qualified with two Bachelor degrees majoring in Geology and Zoology from The University of Queensland. She is currently employed with the Queensland Museum in the SparkLab Science Centre developing and facilitating STEM-based programs for school aged children. This ensures she is a very engaging presenter for this particular age group. Her area of palaeontology involves solving ancient forensic mysteries! Who doesn't like a mystery?

Available Dates: 26th March 2026

Suitability: Years 5-6 high-ability students

Delivery mode: Video Conference

Times:

- 10 am – 12 pm
- 1pm – 3pm

Note: Two identical sessions run across available dates.
