Rathazul's description after analysis: After almost an hour of intense scrutiny and alchemical analysis, Rathazul approaches the two of you. *"Whereas succubi milk is just that, and incubi draft is fermented incubi cum, this omnibi juice is fermented mixture of omnibi vagina juice, a small amount of succubi milk and incubi cum ... and one last component ..."* holding a hand to his mouth as he tries to get control over his stomach's unease, he continues, *"a small amount of omnibi piss."* (MMMmmmMMM! Good stuff.)

Dropped by omnibi, succubi and incubi.

Description:

This concoction, in what appears to be a crystalline vial, a translucent, milky brew seen nothing but a myth till now, is a flask of Omnibi Juice.

Consumption:

(Mutations.as lines 85, 1373 and 8997)

```
outputText("The juice feels so thick and creamy, sticky as well, hard to swallow. It has a sweet, milky aftertaste as if you are suckling from a lactating tit. The aroma that of a slutty cunt riding your face is near intoxicating. Than the other, barely noticeable twang, salty with a bit of sweetness you cannot place.", true);
```

```
if (player.cor <= 33) outputText("Just swallowing it makes you feel unclean.", false);
```

```
if (player.cor > 33 && player.cor <= 66) outputText("The mixture of tastes remind you of something you just can't place.", false);
```

```
if (player.cor > 66) outputText("Then you realize the twang for want it is: piss! Deliciously sinful in all the right ways.", false);
```

```
if (player.cor >= 90) outputText(" You're sure what it must be distilled from: the cum of an incubus, the milk of a succubus, the love juices that flow from an omnibus, and the subtle, almost hidden taste, that of omnibus pee.", false);
```

Interaction with Camp members on Omnibi Juice *IF* in inventory:

Amily:

(To start this, you have to click on [Lovers] and [Amily] with vial of Omnibi Juice in Inventory, AND you have NOT spoken to Rathazul about this.)

Wondering if Amily knows anything about Omnibi Juice, you head over to her area of the camp. You mention that you have a bottle of an unusual potion of transformation, [or so you believe *(if you have not used it before)*] [at least that is what you found out after quaffing from a similar vial *(if you have tried it)*]. "I have heard nothing but the vaguest of rumors regard this," taking the vial, giving it a complete examination short of drinking its contents. She tells you what limited knowledge she has, telling you it may be untrue, it being based on those rumors. *"I'd take it over to Rathazul."*

Rathazul:

(After discussing Omnibi Juice with Amily, with it in Inventory, click on [Followers] [Rathazul].)

As you knew it would turn out, you head over to Rathazul's alchemy lab at Amily's suggestion. +

(clicking [Followers] [Rathazul] with Omnibi Juice in Inventory either initially meeting with Rathazul or after talking with Amily before.)

+ You approach Rathazul, pulling the vial out of your pocket, telling him the limited information you have gathered so far. As Rathazul begins his examination of the contents Amily join the two of you.

After almost an hour of intense scrutiny and alchemical analysis, Rathazul approaches the two of you. *"Whereas succubi milk is just that, and incubi draft is*

fermented incubi cum, this omnibi juice is the fermented mixture of omnibi vagina juice, a small amount of succubi milk and incubi cum ... and one last component ..." holding a hand to his mouth as he tries to get control over his stomach's unease, he continues, *"a small amount of omnibi piss."*

(if you have already tried the omnibi juice, your Corruption was and is lower than or equal to 66) You cough, turning a subtle shade of green, you continue to listen to Rathazul. +

(or if your Corruption was above 89 when you drank it and is currently below 67) Lifting your hand to your mouth with a sickly look to it, you realize that you were correct in your assumption. You turn to Rathazul listening. +

(or if your current Corruption is above 66 and below 90) You grin a wicked grin listening raptly to Rathazul as he continues. +

(or if your Corruption was above 89 when you drank it and is now) Through a wicked grin, you say in a hushed whisper, *"I was right."* +

+ *"The analysis points to this being a positive transformatory, positive in the eyes of the demon of course, but a transformatory point to an Omnibus. Unfortunately, the analysis also points out that I have no clue on how to purify this in anyway, nor do I have any faith that I will in the near future."* With this information, you return to your duties of checking the perimeter of the camp.
