Height List(Just in case needed for character comparison:

Current Planning:

1. Talcott and Eisen nonchalantly chatting at a table nearby with Talcott becoming a Grizzly from potions(don't really have a Grizzly drink I think) and Eisen becoming a Rhino from a can of Rambutan Rhino

Eisen TF Note: So for Eisen turning into a rhino, i'll be keeping my fur in this still. So i'll be around 85% Tfed at this point so from the neck down is rhino and with me looking curious at the horns starting to come out on my muzzle and one arm rising up to touch it and the other arm holding my drink (more like not trying to crush it). So i'll still be anthro for this but I've gotten a lot more muscle and wieght now and my shorts have ripped off but bandanna remains still.

2. Digitalpotato at the counter with Kenku, Plushifying after trying "The Stuffer"
3. Foxgamer talking to Cleo from high above after having drunk a Way-Up, with Cleo looking a bit surprised.
4. Mitch becoming a snake after having accidentally dumped a Slitcher's Root Beer on himself as he knocked it off the shelf.
5. Mathgrant off to the side of the counter turning from a Fox-Badger into a Fox-Tiger due to the effects of Tiger Twist, a pile of board games sitting on the counter and one

upside down on the floor, having dropped it as his body grows to fit the new look(and height as he becomes taller)

6. Nik transforming into a tiger having Sampled a Tiger Twist, near the counter.

7. Arro having drank a Bloodlust Orange, becoming a Vampire Bat, far enough along to be comfortably hanging from a perch beside a booth.

8. Alterflane halfway to becoming a Gryphon having drank a Gryphon Grape.

9. Selden smiling with a serving tray in hand and patting Alt's beak with the other.

10. Lurkingwolf sampling some Stoat Ale and becoming very long and very weaselly as he looks a little surprised at the growing Daren.

11. Dmitriy sitting on a booth table next to Arro's perch holding a can of Wildberry Western Dragon Energy Drink. Has he been drinking it, or is he just half-dragon for the hell of it, nobody can be sure.

Somewhere in the pic: Curus, Caleb possibly

Organizing Questions:

Also as for the counter I think in order to work: Nik-DP-Kenku-Math
