

7-Figure Foundations - 4 Week Intensive

I've never done this before... However, I believe it will be crazily impactful for you if you don't have a 7-figure business that feels **stable, sustainable and allows for ease and flow in your life.**

If your reading this document... you may be part of an early experiment of a new way to deliver my ability to help scale your business.

As we continue into the future, I've been wanting a "new" way to find my ideal people to scale to 7-figures.

Those Entrepreneurs who...

- Have momentum..
- Are already selling their offers...
- Know the basics...
- Have expertise to give the world...

Those who are \$10K/mo are simply hustling and making it work...

Those who are at \$40K/mo finally figured out the value of offers, relevancy, content marketing and social media...

Those who are at the brink at \$75K/mo who are figuring out ads, partnerships, funnels, operations...

And those who are ready for that **true next level.**

Thing is...

Most of what I offer isn't inexpensive.

And I've only ever offered 3 different types of experiences...

Pay me a lot of money... and I'll help you in an intimate way across 1-2 years...

Pay me a bit of money... and work in a group for 6-12 months...

Pay me a tiny bit of money... and take one of my workshops...

Recently, I've seen a lot of people LOVE group that have a specific purpose over a specific amount of time.

For the customer, it allows for something to be accomplished.

For the person delivering it, it allows for focus and a path for people to realize just how amazing they are.

**I tend to believe, due to the massive amount of success I've help create.
I'm amazing at what I do.**

However, **most people never get to experience this inside of their business...**
And I want to **test** a way to allow for this to occur.

Here's how...

Across 4 weeks, I'm going to share the foundations of scaling 7-figures... and you're going to have me to help you the entire way...

I'm going to be teaching...

On Week #1 We will focus on the vision of your business, your life, your business model, your offers, & how to setup the business model so that in 5 years you've built the dream business (and perhaps to even sell it one day). We will dive into all of the mistakes I see Entrepreneurs make and how to ensure you're on the right side of the statistics of getting to 7-figures.

On Week #2 we will focus on my methods around being able to build the right pillars of the business, so that it won't take years of trial & error to figure it out. These are my absolute best frameworks & I'll show you how to use them for your life and your business.

On Week #3 we will focus on traffic sources, how to plan your traffic, how to budget, how to mix the right traffic, alongside of diving into the various funnels that need to be present in your business and how to build an audience, that allows you to have the evergreen business you desire (so launches are a bonus– not the main course).

On Week #4 all on mindset and the financial aspect of building an online business. Majority of these lessons I'll be pulling from my work on mindset and finance, which most of my 1-on-1 clients say are among the most important aspects of our work together.

The format of the 4 weeks is something I've never really ever done...

After each session, you will have immediately actionable “**assignments**” to help you take what was taught & put it to work inside of your business to help drive your strategy forward.

Then in a series of 8 long-form Q&A + Hot Seat sessions, I will mentor you through your thinking.

On top of this, with a Telegram Group, I will be interacting deeply, answering questions via text and audio, giving you more in-depth and group 1-on-1 mentorship.

This is one month... of unrestricted group access to me with everything I believe you need to get to 7-figures.

Truth is... after helping 100's of Entrepreneurs get to 7-figures in their business, I know how to help you increase your odds.

Because right now... you have 1 in 10 chance of ever having a 7-figure business...

But even if you have a 7-figure business...

There's a 70% chance it will fail within 5 years.

Those are odds, I like to beat.

And have beat myself time and time again.

To recap...

Across 4 weeks...

- I will be delivering 4 recorded sessions that will be some of the most concise, focused content for building the foundations of your 7+ figure business.
- I will be giving you 8 hot seat + Q&A calls, perhaps what people love and enjoy the most.
- I will be giving you access to the Telegram Group with audio, video and text support from me.

But...

I wanted to really make sure this was going to crush it for you.

So...

To ensure this really crushes it for you...

After you complete the 4 weeks and the 4 homework assignments...

I will personally review them and send you an audio recording of exactly what I think and to ensure you're on the right path.

Plus... on top of this...

I'm going to be giving **you some of my best workshops and content** to support everything I'm sharing with you from my full access program, Modern Business Academy.

My belief is...

In less than a month, I can download the most important concepts, ensure your strategy is locked in, your mindset is ready and then unleash you out into the world to do what you do best. Help others and create an even better world.

Here's the thing...

I've never done this before.

It's an experiment.

I may never do this again.

At this point, if your still with me...

You might ask...

"How much?" My answer, honestly, even shocks me.

\$1,000.

Then you might say...

"What's the catch... because that isn't expensive."

The only one is that I need a testimonial at the end.

Then you might ask...

"What time zone are sessions in?"

Each will be within the time range of 11AM - 4PM Pacific. Every single session will be recorded and you will have access to all the replay videos.

Diving into this, we will uncover the beliefs that will **without a doubt** hold you back from the business and life you want.

Ready? Awesome.

We start upon having 100 Entrepreneurs sign up.

FEB 22ND, 2024 UPDATE: I've added as a bonus, a 20-minute call with me. We can talk strategy, tactics, mindset, life or anything in-between. I want to get more deeply connected with you and excited to spend some time helping you into that next level.
