

Summer Research Program 2025: Area Groups

Student researchers will be assigned to area groups. These groups are a space in which participants will meet other student researchers working in similar areas, and support one another in their scholarship. Peer mentors for each group are listed first, and marked with an asterisk.

Attendance at all area group meetings is expected.

On campus groups will meet on Thursdays at 12:00 pm. The Undergraduate Research Center will provide lunch out on the Quad (unless otherwise posted).
