

How to Open a Locker

1 Turn the dial RIGHT (→) at least 3 full turns to clear it.

2 Turn RIGHT (→) and stop at your first number.

→ Example: Stop at 25

3 Turn LEFT (←), passing the first number once, then stop at your second number.

← Example: Pass 25, stop at 10

4 Turn RIGHT (→) again and go directly to your third number.

→ Example: Stop at 5

5 Pull up the handle or open the locker door.
