

DIC instagram caption (Product is Organic chia seeds with vitamin D and probiotics.)-- female audience (moms)

SL: Sprinkle some magic into your little one's meals!

Here's a sneaky trick you can use to help your child eat healthy without them even knowing...

**There's no such trick.** All you can do is help your kid enjoy healthy foods!

But, some children HATE the taste of healthy foods so we kept that in mind and created a 'magic dust'.

A magic dust that can be added to most dishes! Introduce the Organic chia seeds with vitamin D and probiotics!

- The Organic Milled Chia Seeds are filled with protein to promote muscle repair
- Easy to add on top of smoothies, oatmeal, yogurt, and more!
- The probiotics give your child a healthy gut and boost their immune system
- The vitamin D helps keep your child's bones strong, even when the sun doesn't shine

You deserve to give your little one a healthy lifestyle that doesn't need ANY useless junk food.

So click the link in bio to sprinkle some sweetness in your little one's meals!
