

NESSAC Coaching Bursary

In knowing the important role of sports has in high schools, NESSAC has created a \$2000.00 bursary to award to a coach/athletic director to further their SHSAA coaching or athletic directors development.

This bursary could provide additional support to attend a unique coaching experience somewhere within North America. We want the applicant to include a summary of your background within the SHSAA sport to which you would apply this coaching bursary. Also include the name of the conference, location, date, and approximately the amount you are needing in the application. Then, we want you to tell us as specifically as possible how (what, when, and where) you would apply this bursary during the school year.

Receipts will need to be supplied before you are reimbursed. These receipts could be registration, transportation, and/or accommodation. Mileage will be paid with NESD rates. There will be a food per diem that will also be paid the same as NESD rates.

This is an excellent opportunity to consider attending a conference or event that may have been beyond the financing available to you. Think big, but be clear!

The application deadline is September 30th. A decision regarding the recipient will be made and shared by October 15th.
