

Witcher High
Chapter 2
“In BERRY Big Trouble”

Written by: Livsdrawings & DatBlueWolf

*****🍓*****

Primrose kept looking for Garcon and Savarin, but with no luck. So she asked the teacher Mr.
Preston on what happened to them
“Well they went to punishment”
That made Primrose shocked Garcon was the sweetest kid she ever known and Savarin was kind as
well
How did they go to y'know punishment
She then heard some noises,
“NO SADIE I'M NOT GOING TO BE WITH YOU ANYMORE YOU'RE SELFISH! RUDE! AND ALSO
PRETTY TOXIC!”
Vincent scowled
“Well You wanna avoid being bullied right Be my boyfriend again!”

“I rather Die than Being with you”
Vincent scoffed
This made Sadie upset
She started to choke Vincent and then Primrose know she had to hurt someone She punched Sadie
in the face so hard she let go of Vince's neck

“YOU F*CKING SON OF A B*TCH!!!!”

Sadie yelled as she ran out the door of the empty classroom

She was trying to get her to punishment
As she helped Vincent get up
Meanwhile

In school basement

Debbie was sitting down afraid of what destiny would do to them

Matthew Chandler sit aside her on the bench

“Hey Hillary, any luck yet?”

Hillary Jones Looked out to see 42 people and one gingerbread man

“Not good someone got under destiny's spell”

“We should save them!”

Lyra Petra said

“And what Blow our cover no way I'm letting that happen”

Roxy Forth said as she threw a knife at a picture of destiny

“Maybe just maybe I'm going to get a student to talk to us make them realize the truth”

Debbie pointed out

“DEBBIE YOU ARE INSANE”

Matt said

“To be honest I like your idea more than mine”

Lyra said

“I know Matt I know I'm insane but what choice do we have we can't just rot in here!!!”

Debbie exclaimed

“Whatever Spiky Girl”

Roxy said

Debbie grabbed a bat just in case....

Matt looked at the emoji list one last time finally realizing

(I hate this part)

-G

-S

-W

🌶️-CP

👑-CT

🕸️-N

💪-M

🧑-A

The list went on and on...

Until...

👧💎-Debbie

“Oh f*ck, oh f*ck, DEBORAH!!!!!!”

Meanwhile

Savarin was running as fast as she can

She hid in a locker hoping she's still dreaming when
Tanner arrived he dropped off something a green backpack

Oh how gullible she was

She put the damn thing on As she felt a crack her fingers fell off as her toes did the same what's left of her hands and feet turn into nubs Her outfit turned into a pink hoodie as her (#####) is gone She is still a she as her hair starts to get hidden by the hood her eyes turned brown as her nose and ears disappeared she began to shrink till she's half her size she felt her mind getting wiped Her friends Garcon Cody Courtlyn and Winston? She can't even remember who they were. Then it clicked...

Garcon.. he's GingerBrave, right?

Winston-Wizard Cookie, Cody-Chili Pepper Cookie. Courtlyn-Custard Cookie III. It all makes sense that is their names but wait What happened to them But Gin-con Just died in front of her right? No he didn't die, he's just himself again! Plus if he did die Witcher will be in danger Witcher? That's not where she's from right? Her memories flickered Through her eyes each time they slowly change

Until Savarin is gone she's forgotten her name as well Speaking of, what's her name again? Savarin

Beatrix right? No it's not WHY CAN'T SHE REMEMBER HER NAME?

Wait.. it clicked in her, her name started with.. S? It's the closest she can get But then she Felt Her name changing Stavarerry? Closer Strawberry? It could be correct As memories of Being close friends with Garcon and Winston and Her long distant bestie Gianna Became memories of adventuring with her friends And so savarin Is gone forever

Meanwhile

Danny was walking to find something

Until she found a tape

"This is Deborah And I'm here to tell whoever is listening The academy Is a lie And they are trying to Brainwash the students to think they're someone they're not I was dragged in there And almost got executed before getting saved by Chandler And Many others if you're Valdez I will see you at a party Destiny is hosting I will see you soon Rosie"

The tape ended

Danny must tell Primrose
