### *Storytelling With Purpose*

My new book helps us solve existential challenges to teaching and learning: low student engagement and artificial intelligence. This book is a guide that helps learning coaches, teachers, and administrators reframe teaching and learning through the authentic, student-centered experience of creating digital stories that leverage curiosity and passion as the engine for learning. [Find out more.](#)

### **Change the Narrative podcast**

In this travelog style podcast, I explore innovation in education and the workplace. We hear from some of the best innovators across disciplines to hear their ideas about how you can change the narrative of your life and workspace

### **Change the Narrative Newsletter**

Every month I hand-pick the most useful and thought-provoking resources around the topics of digital literacy and innovative education, share a personal anecdote, and connect you with innovative educators around the world. Sign up to receive this curated resource, delivered right to your email inbox!

<http://bit.ly/ChngNarSignup>

### **Published Articles & Books**

See articles I've published for Edutopia, Edsurge and more.

<http://www.michael-hernandez.net/my-articles--books.html>

### **Media Literacy Course for Teachers**

Fake news and disinformation are major challenges for our democracy. Learn to identify and neutralize the effects of fake news by learning how to analyze images, websites and social media streams. Discover how to embrace digital tools for research, authentic authoring and publishing in your classroom. Find out how “read” digital texts like websites and social media posts and empower students to contribute facts to the online narrative.

<http://bit.ly/MediaLiteracyCourse>

## **Creating Digital Books on Mac & iPad**

Publishing digital books can seem daunting, so I co-authored this digital book with Apple to walk you through the steps of creating digital books using Pages. See step-by-step instructions and best practices, including design tips, advanced image editing, adding multimedia, using text, organizing with tables of content, and how to publish to Apple Books. See teacher-created books, and hear testimonials about how to use digital books made with Pages in all subject areas and grade levels.

## **Art of the Video Interview digital book**

I wrote this multi-touch book to help students and teachers produce high quality interview for their projects. If you want to incorporate video storytelling into your class, or produce videos for your school or district, check out this book that includes video samples, tips on videography, how to write interview questions, how to choose microphones, etc. Note: this book is only viewable using iBooks on a Mac, iPhone or iPad.

## **Build Empathy Through Storytelling**

I'm passionate about all kinds of storytelling and how the act of creating and publishing stories has the ability to open hearts and minds. This article explores my ideas about storytelling and empathy and can give you a better sense of my philosophy of teaching and learning. It was written by Nicole Krueger for the ISTE member magazine, *Empowered Learner* in 2018.

## ***Digital Storytelling***

Check out this compilation of resources that help students use images, video, audio, multi-touch books and online tools to create and publish original work.

<http://bit.ly/dig-storytelling>

## ***Explainer Videos***

This guide to creating videos that explain a topic, dispel a myth or otherwise present info in a compelling way

<https://docs.google.com/document/d/1udRwEsASDvv6UJw8paevZTbE1m88eVPUqVlzRaxQo-c/edit?usp=sharing>

## ***Augmented Reality & Virtual Reality***

Use Google Cardboard and virtual reality tools for student learning

<http://bit.ly/VirtRealityEdu>

## ***Digital Storytelling Teacher Training Trips***

Attend these teacher-only trips to locations like Guatemala, Cuba and Vietnam to learn how to create multimedia stories. While you learn by doing, you'll also receive curriculum you can use with your students back at home. See what this trip looks like by downloading the free Human Geography ebook below! [Find out more and register](#).

## ***Human Geography Project***

[This free digital book](#) documents the projects created by teachers on a teacher training trip to Guatemala, where the participants learned how to create video documentaries using their ipads. This digital book contains their final projects, the process they used, personal reflections about how they'll use these skills in their classrooms, and the recipe for replicating this project in your classroom.

Check out a lesson plan for this project that I published on the [Adobe Education Exchange](#).

## ***Everyone Can Create***

This set of [free resources created by Apple](#) provide how-to instructions for integrating creativity in the classroom.
