The FFA Mission - FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth, and career success through agricultural education.

August 1st, 2025,

The FFA Mission:

FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth, and career success through agricultural education.

Dear Aguilar Community Member,

The Aguilar FFA Chapter was officially chartered in 2017 and is proud to be a growing part of our local school and community. As a newly developing program in a small rural town, we are working hard to build a foundation that empowers students through leadership opportunities, hands-on agricultural experiences, and community service. Our chapter may be young, but our students are motivated, creative, and eager to make a difference.

FFA gives students access to leadership development events, career skills competitions, educational camps, and more. These experiences are life-changing—but they often come with costs that our students and program simply cannot afford on our own. As a beginning chapter, we are operating on a very limited budget and rely heavily on the generosity of our community to bring these opportunities to life.

We are reaching out to ask for your support in helping our members attend events such as the Colorado State FFA Convention, Chapter Officer Leadership Training, and district-level competitions. Your donation—no matter how big or small—can help cover registration fees, travel expenses, and even basic supplies like official FFA jackets or meeting materials.

Your support will directly impact the future of our students and help grow a sustainable FFA program here in Aguilar. If you're willing to help, please contact our FFA advisor, Mrs. Rachelle Andreatta, at:

Thank you for investing in the future of agriculture and the youth of Aguilar. We are deeply grateful for your continued support.

Sincerely,

Aguilar FFA

“Rooted in Tradition, Growing the Future”
