ZERWIN LA 12 GRADES 2021

<u>To get credit for the semester</u>, no assignments in the "major tasks" category in IC can be missing. For this semester, those major tasks include:
- Letter to Z
- Plan for learning and growth
- Revised Drafts (there will be two)
- Final exam task(s)
- Semester grade letter/story

A = You met deadlines (goal 8), followed instructions (goal 8), were a positive community member (goal 9), and collected evidence of compelling growth (goal 10) toward your learning objectives. The story in your letter fully explains and shows that growth—with specific detail—toward each of your learning goals (the three you chose out of goals 1-7). Your completed work percentage is 100.

B = You did the work well, but there were a few things you could have done more with, or you could have been better with due dates and following instructions, or you could have been a more positive community member. You have clear evidence of growth, but it is not as compelling perhaps as it could be, or the story in your letter does not explain/show your growth as fully or as detailed as it could.

C = You did work, but there were several things you could have done more with. You don't have as much evidence of growth toward your learning objectives as you could have, or the story in your letter explains/shows your growth minimally.

D = You did minimal work and have minimal evidence of growth toward your learning objectives. There was a lot that you could have done much better.

F = You did not turn in one or more of the major assignments for the class.

NOTE: You cannot be knocked out of a particular grade category for one little thing. That would be silly.
