

Policy 18

COMMUNITY USE OF FACILITIES

The Board believes that community groups should have reasonable access to Division owned facilities.

Specifically

1. When facilities are not being used by the Division, they may be made available for use by the community, subject to the procedures and fee schedule established by the Superintendent of Schools.
2. Board facilities are made available to the community outside of normal operating hours, where there is no added cost, or undue risk, to the participants and the Division.
