

Data Discussion Protocol

1. Everyone introduce yourself to the group.
2. For every graph/data table/chart, rotate around the group with a different person sharing each of the following:
 - a. Define/clarify any vocabulary used
 - b. Identify what each axis or column represents
 - c. Describe major trends/what can be concluded
“As the (independent variable) increases/decreases/stays the same, the (dependent variable)...”
3. On the shared document
 - a. Summarize the trend(s)
 - b. Add questions for the class
