CE9.1

Demonstrate and analyze characteristics of static electric charge and current electricity, including historical and cultural understanding.

Using your textbook and other references of your choice, define the following terms as related to electricity:

Atoms		
Electrons		
Protons		
Neutrons		
Charge		
Force		
Conductors		
Insulators		
Resistance		
Volt		
Ampere		

Electricity Vocabulary

Joules	
Circuit	
Electrical Discharge	
Open Circuit	
Closed Circuit	
Series Circuit	
Parallel Circuit	
Electrical Forces	
Resistor	
Magnet	
Magnetic Poles	
Electromagnet	
Ammeter	
Voltage	
Voltmeter	
Watt
