

MIS Materials List : Grade 11 & 12

2026/2027

Dear Grade 11 & 12 Families,

Below, you will see a list of equipment needed for the beginning of the new school year.

Please take the time to look at what materials you need to purchase for your child. If you see that items bought from the previous year are still in good condition, please ask your child to reuse them. Please ask your child to label each article that they bring to school with their **name**, **grade** and the appropriate **topic or subject** and make sure your child maintains material throughout the year.

If you have any questions, please email the front office at contact@metroschool.de.

We all look forward to the upcoming school year and we hope to be prepared as possible with all of the materials that we need to be successful.

Yours sincerely,

Metropolitan International School

For students new to our IBDP, please find below the steps to check out your school Macbook:

To help students across their learning experience, we are providing all students in the IB programme (Grades 11 and 12) access to an Apple Laptop as part of the **materials list**. MIS will help supply these via a leasing program through a third party vendor who works with many school like ours. As we continue to develop a more digitised learning experience, having access to such a device will utilise many of the learning resources and processes we are developing in school, to set our students up for success down the road.
