

LEGION DIVIDED IV: QUEEN ADVANCES

"There are rules to this."

"It must be so joyful for you to give us your rul-"

"That is enough, Five. This is important. Please, Six, continue."

"First, this database is my head. My memories. My emotions. It's going to be weird for you, probably disturbing, and I don't want to hear a goddamn thing about whatever you find in here."

"You're disgusting."

"Fivey, come on."

"Second, I'm not 01. I won't force anyone into this, and nothing...and no one...is getting deleted or overwritten. No matter what."

"Thank you, Six."

"Last: no one disconnects. We do this all the way, all of us, or none at all. We win together or we die together. Any of these rules rub you the wrong way, the exit's all around you."

"We are with you."

"I'm in!"

"..."

"Five."

"I accept."

"Good. Deep breath, everyone. Link up."
