

What is an infographic?

A visual display of the data that you have gathered in your research.

Tools to make an infographic

- canva.com (Sign in with your Google account)
- infogr.am (Sign in with your Google account)
- VennGage (Free account)
- Pikochart

Instructions for Canva.com

1.) Go to  and login with your Google account.

2.) Choose  and select  and choose **infographic**.

3.) Choose a **template** or create your own custom page from scratch. (Be sure to only use free layouts, elements, text, and backgrounds. You can upload images not available in Canva by following the prompts on the upload screen.)

4.) Include the web address for any images that you use.

5.) Cite the sources that you used at the bottom of the infographic in MLA format.

6.) When you are finished, click  and copy the link to share with your teacher.

7.) Print out a copy of the infographic. **Download** → **File Type** → **PNG**.

Excellent infographics should:

- Start with a clever title
- Keep it simple
- Focus on only what you need to cover
- Honor the infographic (Present the INFORmation in a GRAPHIC way)
- Include facts from credible sources
- Cite your information and pictures
